Becoming a Bilingual Family Stephen Marks,Jeffrey Marks,2013-01-30 Would you like your children to grow up bilingual even if you aren't yet? Then speak to your kids in Spanish as you learn the language along with them. *Becoming a Bilingual Family* gives English speaking parents the tools to start speaking Spanish with their kids in their earliest years when children are most receptive to learning languages. It teaches the vocabulary and idioms for speaking to children in Spanish and offers practical, proven ways to create a language learning environment at home. The first part of the book introduces parents to many resources: books, audio books, music, television, computer programs, childcare workers, school, and friends that can help you establish a home environment conducive to the acquisition of Spanish. The second part is a Spanish phrasebook that takes you through all the typical activities that parents and children share from getting up in the morning to going to bed at night. Few if any other Spanish study aids provide this much vocabulary and guidance for talking to small children about common daily activities. The authors also include a quick course in Spanish pronunciation and enough grammar to get a parent started. Spanish language resources, kids' names in Spanish, and an easy-to-use index and glossary complete the book. Take the Markses' advice and start talking to your kids in Spanish even if it's not perfect. You'll learn the language together and share the excitement of discovering the peoples and cultures that make up the Spanish speaking world.

Quechua de Huarás, en Español e Inglés: Glosario Menandra Mosquera,2012-11-30 This glossary has been prepared in order to leave a record of the Quechua spoken by the people of Huarás and surrounding areas in the mid 20th century. Huarás capital of the Region Department of Ancash, Peru, has a distinct form of Quechua. That dialect was endangered due to a massive earthquake on May 31, 1970. Tens of thousands of people died and the city was destroyed. Many of the survivors left the area. Once rebuilt, Huarás was repopulated with people new to the area who use Spanish or a different dialect to communicate. Since then, technological influences such as the Internet also reinforce the use of Spanish to the detriment of the local Quechua. Born in Huarás, I was raised in a bilingual environment, Spanish and Quechua. Although I left the area to attend the university, I could always feel at home upon returning until that earthquake. Since then, it seems strange to return to an unfamiliar city due to people, language, and environment. I hope this glossary will help the newer generations better understand not only their grandparents and ancestors but the culture from which they come. Language and culture are intimately tied, and much more than words is lost when a language dies. The Inca Empire, Tahuantinsuyo, was invaded by Spain in 1532. At that time, Quechua was spoken, never written, throughout the Inca civilization with many dialects. Since then, the Spanish language has been imposed, but in Huarás, it never did it replace Quechua to the extent that it did in 1970. This glossary contains words, several verb forms, and phrases. It is written with the expectation that it may help to preserve the inherited Quechua so that Huarás may remain bilingual. It is written for huarasinos, the people of Huarás. If others

find it useful better yet The glossary is in Quechua To facilitate access to the Quechua indices in Spanish and in English are included M Mosquera
