**Dress and Cultural Difference in Early Modern Europe** Cornelia Aust,Denise Klein,Thomas Weller,2019-10-08 Dress is a key marker of difference It is closely attached to the body part of the daily routine and an unavoidable means of communication The clothes people wear tell stories about their allegiances and identities but also about their exclusion and stigmatization They allow for the display of wealth and can mercilessly display poverty and indigence Clothes also enable people to play with identities and affinities for instance individuals can claim higher social status via their clothes In many ways dress is thus open to manipulation by the wearer and misinterpretation by the observer Authorities whether religious or secular local or regional have always aimed at imposing order on this potential muddle This is particularly true for the early modern era when the world became ever more complex In Europe the composition of societies diversified with the emergence of new social groups and increasing migration and travel Thanks to intensified long distance trade and technological developments new fashionable clothes and accessories entered the market With the emergence of a consumer culture it was now the case that not only the extremely wealthy could afford at least the occasional indulgence in luxury items and accessories Over recent years research has focused on a variety of areas related to dress and appearance in the context of early modern political socio economic and cultural transformations both within Europe and related to its entanglement with other parts of the world Nevertheless a significant compartmentalization in the research on dress and appearance remains research is often organized around particular cities and territories and much research is still framed by modern national boundaries This special issue looks at dress and its perception in Europe from a transcultural perspective and highlights the many differences that clothing can express

**The Force of Fashion in Politics and Society** Beverly Lemire,2016-12-05 Throughout history fashion has emerged as one of the most powerful driving forces determining the political economic and social ramifications of the production distribution and circulation of goods Indeed fashion especially in relation to clothing and textiles shapes the relationship between self and society in unique ways In this light the collected papers in this volume position fashion as the lens the critical mediating force through which to analyse and understand cultural economic and political shifts within a broad spectrum of societies in Europe Asia Africa and America from the seventeenth to twenty first centuries Topics include a seventeenth century failing fashion region the material politics of marketing American abolitionist fashions the construction of a fashionable ethos for French perfumes and the use

Writing Fashion in Early Modern Italy Eugenia Paulicelli,2016-02-17 The first comprehensive study on the role of Italian fashion and Italian literature this book analyzes clothing and fashion as described and represented in literary texts and costume books in the Italy of the 16th and 17th centuries Writing Fashion in Early Modern Italy emphasizes the centrality of Italian literature and culture for understanding modern theories of fashion and gauging its impact in the shaping of codes of civility and taste in Europe and the West Using literature to uncover what has been called the animatedness of clothing author Eugenia Paulicelli explores the political meanings that clothing produces in public space At the core of the book is the idea that the texts examined here act as maps that first pinpoint the establishment of fashion as a social institution of modernity and second gauge the meaning of clothing at a personal and a political level As well as Castiglione s *The Book of the Courtier* and Cesare Vecellio s *The Clothing of the Renaissance World* the author looks at works by Italian writers whose books are not yet available in English translation such as those by Giacomo Franco Arcangela Tarabotti and Agostino Lampugnani Paying particular attention to literature and the relevance of clothing in the shaping of codes of civility and style this volume complements the existing and important works on Italian fashion and material culture in the Renaissance It makes the case for the centrality of Italian literature and the interconnectedness of texts from a variety of genres for an understanding of the history of Italian style and serves to contextualize the debate on dress in other European literatures

represents the first historical study of how these networks of fashion communication functioned and evolved in an increasingly global material world Focussing on Britain separated from mainland Europe yet increasingly globally linked this volume will trace how dress was disseminated in and out of one island nation The paths made by print image and commodities around the globe have enabled historians to reimagine a connected material world The influence of innovations in dissemination shape this volume which asks urgent questions about the extent of global influence on fashion and the intertwining nature of written printed visual and material fashion news This collection brings together innovative scholarship from an interdisciplinary group of historians art historians and fashion scholars to consider how global and local networks of dress dissemination converged to shape fashionable dress in Britain and how British methods and aesthetics spread outwards across the world From the drawing rooms of 19th century London to the verandas of 19th century Australia contributors to Disseminating Dress develop narratives of commodity and knowledge exchange to consider how fashion circulated Dress and Ideology Shoshana-Rose Marzel, Guy D. Stiebel, 2014-12-18 Dress and fashion are powerful visual means of communicating ideology whether political social or religious From the communist values of equality simplicity and solidarity exemplified in the Mao suit to the myriad of fashion protests of feminists such as French revolutionary women s demand to wear trousers dress can symbolize ideological orthodoxy as well as revolt With contributions from a wide range of international scholars this book presents the first scholarly analysis of dress and ideology through accessible case studies Chapters are organized thematically and explore dress in relation to topics including nation identity religion politics and utopias across an impressive chronological reach from antiquity to the present day Dress Ideology will appeal to students and scholars of fashion history sociology cultural studies politics and gender studies **The Polity of the Christian Church of Early, Mediaeval, and Modern Times** Alessio Aurelio Pelliccia, 1883 **Library of the World's Best Literature, Ancient and Modern: A-Z** Charles Dudley Warner, Hamilton Wright Mabie, Lucia Isabella Gilbert Runkle, George H. impacting on every aspect of life and reflected in equally rapid and widespread changes in fashion at all levels of society. These papers present a broad image of the theme of fashion as a concept and as an empirical manifestation in the Nordic countries in early modernity, exploring a variety of ways in which that world encountered fashionable impressions in clothing and related aspects of material culture from Europe, the Russian Empire, and far beyond. The chapters range from object-based studies to theory-driven analysis. Elite and sophisticated fashions, the importation of luxuries, and fashion garments for christening and bridal wear, silk knitted waistcoats, woollen sweaters, and the influence of the whaling trade on women's clothing are some of the diverse topics considered, as well as religious influences on perceptions of luxury and aspects of the garment trade and merchant inventories.
