Architects of an American Landscape Hugh Howard, 2022-01-25 A dual portrait of America's first great architect Henry Hobson Richardson and her finest landscape designer Frederick Law Olmsted and their immense impact on America As the nation recovered from a cataclysmic war two titans of design profoundly influenced how Americans came to interact with the built and natural world around them through their pioneering work in architecture and landscape design Frederick Law Olmsted is widely revered as America's first and finest parkmaker and environmentalist the force behind Manhattan's Central Park Brooklyn's Prospect Park Biltmore's parkland in Asheville dozens of parks across the country and the preservation of Yosemite and Niagara Falls Yet his close friend and sometime collaborator Henry Hobson Richardson has been almost entirely forgotten today despite his outsized influence on American architecture from Boston's iconic Trinity Church to Chicago's Marshall Field Wholesale Store to the Shingle Style and the wildly popular open plan he conceived for family homes Individually they created much beloved buildings and public spaces Together they married natural landscapes with built structures in train stations and public libraries that helped drive the shift in American life from congested cities to developing suburbs across the country The small reserved Olmsted and the passionate Falstaffian Richardson could not have been more different in character but their sensibilities were closely aligned In chronicling their intersecting lives and work in the context of the nation's post war renewal Hugh Howard reveals how these two men created original all American idioms in architecture and landscape that influence how we enjoy our public and private spaces to this day

America's Most Gothic Leanna Renee Hieber, Andrea Janes, 2025-09-30 From the Bram Stoker nominated author team who penned A Haunted History of Invisible Women the first book of its kind to investigate gothic tropes that define American lore Here is the hidden dark history of what frightens us and why The Gothic Brooding atmospheric chilling and not always the outpouring of a feverish imagination Reality can be even stranger as borne out in this lush and ghostly look at real people who lived and died amidst the trappings of the Gothic Fog clinging to an isolated mansion A dangerous patriarch or an overbearing matron Locked doors and forbidden rooms Whispers of murder and madness And a woman shadowed by omnipresent threats You ve

guessed it You've stumbled into a Gothic tale and it will haunt you like a ghost We often think of the enduring tropes of the Gothic in terms of fiction and film breath catching escapes that tap into our fears anxieties forbidden desires and unsettling dreams But what if some of these chilly vibes are rooted in the experiences of real and tragic people who danced a macabre waltz with love and death That's why we're here Take the case of teenage Mercy Brown victim or was it predator of Rhode Island's vampire hysteria of the 1890s Marguerite de la Roche a French noblewoman condemned for sexual crimes to Canada's long lost Isle of Demons What happened to her and the barren landscape itself is the stuff of legend And Mad Lucy Ludwell the decidedly peculiar eighteenth century high society hauteour driven mad in the Virginia estate she prowls to this day President Helen Peabody's spirit still stringently watches over her Women's College now part of Ohio's Miami University Ghosts of workers lost in horrific conditions while building the Hoosac Tunnel warn of imminent danger Settle in There are more Welcome to the phantom ships haunted academic halls menacing landscapes and family curses of America's Most Gothic a tour of true spectral sightings and disordered minds But beware it's sure to get under your skin The haunted and haunting figures herein want it that way
