Ralph L. Kliem,2022-02-20 The early explorers up through those of the early part of the last century were the supreme users
of management practices that have been formalized today Their expeditions had all the characteristics of a business project
goal setting strategizing applying finite resources risk taking keeping people dealing with competitors and many others
During actual expeditions the leaders faced many risks issues and conflicts that challenge the best leaders today from small
to large enterprises Like all projects and business ventures the expeditions met their goal either partially or entirely and in
some cases even exceeded it or failed it completely **Management Lessons from the Great Explorers** selects the most famous
and in some cases infamous explorers to discuss and analyze the good and bad management practices even though these
explorers may have never called them management practices they used before during and even after their expeditions Each
chapter provides historical background about one explorer and the details about their explorations The chapters then discuss
the challenges the explorers faced when planning and executing their expeditions and examine their successes and failures
from a management perspective The book will help managers to Manage unexpected and potentially catastrophic risks Set
goals that open up new horizons Communicate effectively with team members Lead teams through hardships and difficulties
The final chapter gives lessons learned that managers may take from the book and apply to their own business undertakings
These lessons include Learning from experience Having a strong sponsor and team Relying on data and information Applying
risk management and adapting to changing circumstances Implementing unity of command and defining roles and
responsibilities Identifying and understanding stakeholders Being decisive Being willing to say no **Coastal Exploration**
