Bartok's Workshop:

Bartok's Workshop László Somfai, 1977 Bartok's Viola Concerto Donald Maurice, 2004-03-04 When Bela Bartok died in September of 1945 he left a partially completed viola concerto commissioned by the virtuoso violist William Primrose. Yet while no definitive version of the work exists, this concerto has become arguably the most performed viola concerto in the world. The story of how the concerto came to be, from its commissioning by Primrose to its first performance to the several completions that are performed today, is told here in Bartok's Viola Concerto: The Remarkable Story of His Swan Song. After Bartok's death, his family asked the composer's friend Tibor Serly to look over the sketches of the concerto and to prepare it for publication. While a draft was ready, it took Serly years to assemble the sketches into a complete piece. In 1949, Primrose finally unveiled it at a premiere performance with the Minneapolis Symphony Orchestra. For almost half a century, the Serly version enjoyed great popularity among the viola community, even while it faced charges of inauthenticity. In the 1990s, several revisions appeared, and in 1995 the composer's son Peter Bartok released a revision, opening the way for an intensified debate on the authenticity of the multiple versions. This debate continues as violists and Bartok scholars seek the definitive version of this final work of Hungary's greatest composer. Bartok's Viola Concerto tells the story of the genesis and completion of Bartok's viola concerto, its reception over the second half of the twentieth century, its revisions, and future possibilities.

Music at the Turn of the Century Joseph Kerman, 2024-03-29 Most of the essays in this book were solicited for the tenth anniversary of the journal *19th Century Music*, which has sought to encourage innovative writing about music, musicological, theoretical, and/or critical writing since its founding in 1977. We invited former contributors and some others to submit articles on the general question of the relations between nineteenth century music and music of the early twentieth century. Responses to our invitation were published in two special issues in the spring and summer of 1987. The breadth and scope of these articles, and their collective cogency, sparked the idea of reissuing them under a single cover as a book. From the Preface: Most of the essays in this book were solicited for the tenth anniversary of the journal *19th Century Music*, which has sought to encourage innovative writing about music, musicological, theoretical, and/or critical writing since its founding in 1977. We i

Bartók and His World Peter Laki, 1995-08-27 Bela Bartok, who died in New York fifty years ago this September, is one of the most frequently performed twentieth century composers. He is also the subject of a rapidly growing critical and analytical literature. Bartok was born in Hungary and made his home there for all but his last five years, when he resided in the United States. As a result, many aspects of his life and work have been accessible only to readers of Hungarian. The main goal of this volume is to provide English speaking audiences with new insights into the life and reception of this musician, especially in Hungary. Part I begins with an essay by Leon Botstein that places Bartok in a large historical and cultural context. László Somfai reports on the catalog of Bartok's works that is currently in progress. Peter Laki shows the extremes of the composer's reception in Hungary, while Tibor Talli surveys the often mixed reviews from the American years. The essays of

Carl Leafstedt and Vera Lampert deal with his librettists Bela Balzas and Melchior Lengyel respectively David Schneider addresses the artistic relationship between Bartok and Stravinsky Most of the letters and interviews in Part II concern Bartok's travels and emigration as they reflected on his personal life and artistic evolution Part III presents early critical assessments of Bartok's work as well as literary and poetic responses to his music and personality *Bela Bartok* László Somfai,2023-12-22 This long awaited authoritative account of Bartok's compositional processes stresses the composer's position as one of the masters of Western music history and avoids a purely theoretical approach or one that emphasizes him as an enthusiast for Hungarian folk music For Bela Bartok composition often began with improvisation at the piano László Somfai maintains that Bartok composed without preconceived musical theories and refused to teach composition precisely for this reason He was not an analytical composer but a musical creator for whom intuition played a central role These conclusions are the result of Somfai's three decades of work with Bartok's oeuvre of careful analysis of some 3 600 pages of sketches drafts and autograph manuscripts and of the study of documents reflecting the development of Bartok's compositions Included as well are corrections preserved only on recordings of Bartok's performances of his own works Somfai also provides the first comprehensive catalog of every known work of Bartok published and unpublished and of all extant draft sketch and preparatory material His book will be basic to all future scholarly work on Bartok and will assist performers in clarifying the problems of Bartok notation Moreover it will be a model for future work on other major composers This long awaited authoritative account of Bartok's compositional processes stresses the composer's position as one of the masters of Western music history and avoids a purely theoretical approach or one that emphasizes him as an enthusiast for Hungarian
