**Mandarin** Lawton L. Shurtleff, Christopher Savage, 1996-11-11 This is a story of conservation told through the natural  
histories of two of the world's most fascinating birds the Wood Duck of North America and the Mandarin of Asia The only two  
species in their genus *Aix* these Northern Wood Ducks are native to different continents but have long been kept together in  
captivity Now for the first time in history they are also flying side by side in the wild in a small area of northern California  
This rare circumstance has given Lawton L Shurtleff and Christopher Savage the opportunity to observe the Northern Wood  
Ducks close relationship and is the starting point of this informative and beautifully rendered book The opening chapters tell  
how the Wood Duck and the Mandarin came to inhabit the Pacific Flyway and explain their extraordinary similarities  
Subsequent chapters discuss the distinctive histories of the two species and describe the birds throughout the seasons in  
their native flyways The Mandarins place in Asian art and literature is the subject of Chapter Five The final chapter  
illuminates the successful work done to protect the North American Wood Duck which has made a remarkable recovery from  
near extinction and the beginning efforts to protect the Mandarin whose existence in East Asia is seriously threatened  
Stunning full color photographs by renowned wildlife photographers along with photographs by the authors capture the  
exquisite beauty of these much revered birds Detailed maps show the Wood Ducks territory in North America and the  
Mandarins territory in East Asia and Great Britain Three appendices plans for building nestboxes instructions for banding
