Heaton,Anne-Marie Lewis,2008 *Night Fighters* examines the historical technological tactical and strategic evolution of limited visibility aerial combat as the air forces of Great Britain and Germany dueled in the night skies during World War II The book is based on extensive research and interviews with the key planners and policy makers responsible for their respective national strategies governing the conduct of the nighttime air war as well as with the airmen who fought the war which makes it far more detailed than previous works on this subject The science developed by both nations greatly increased the momentum and lethality of air combat in that conflict In addition this arena of World War II combat also produced many technological innovations the results of which are seen today in everyday military and civilian life **BOOK JACKET** **Their Finest Hours** Jerome Klinkowitz,1989 The War in the Air: the Royal Air Force in World War II Gavin Lyall,1969 *National Union Catalog* ,1978 Includes entries for maps and atlases No Prouder Place David L. a fresh and objective look at the bombing campaign by emphasizing the highly significant role it played in defeating the Axis powers It is a story of sustained courage in the face of daunting odds as well as a celebration of the Canadian aircrew experience and its place in wartime Bomber Command The text contains scores of original recollections from the veterans themselves interwoven with material from primary archival and secondary sources It is illustrated with original art work by Ron Lowry including colour side profiles of selected Bomber Command from RCAF units and Luftwaffe aircraft *Above and Beyond* Spencer Dunmore,1996 From the first skirmishes over Europe in September 1939 Canadian airmen served in almost every theatre of the Second World War from bases in Britain and Europe North Africa and Southeast Asia And in the months and years that followed with the slaughter mounting in hostile skies around the globe the contribution of Canadian pilots navigators gunners air bombers and flight engineers grew out of all proportion to their country s population In the early days of the conflict great numbers of Canadians served in units of Britain s RAF and Fleet Air Arm As the war progressed however the Royal Canadian Air Force came into its own and by Germany s surrender forty eight RCAF squadrons were overseas almost completely manned by Canadian officers and men Among the Canadians were Johnny Fauquier and Reg Lane Canada s leading bomber pilots Stan Turner perhaps the country s greatest fighter leader Len Birchall the gallant Saviour of Ceylon the redoubtable ace Buzz Beurling the great naval hero Hammy Gray Roly Dibnah Bert Houle and many others These brash young men from the Empire s senior dominion had little time for ceremony and tradition Countless British officers considered them dangerously independent and lacking in respect for rank But in the air where it counted the Canadians more than proved their worth Combining first person accounts of the action and his own vivid prose Dunmore captures the high drama and gut churning tension of dogfights and bomber raids charts the victories and defeats of the armies and navies below and recreates the mood abroad in wartime as the world watched the drama unfold **Books of the Month** ,1957
