The Death of Evolution Jim Nelson Black, 2010-09-04 This groundbreaking new book *The Death of Evolution Restoring Faith and Wonder In A World of Doubt* reveals how a growing number of scientists see faith and science as complementary providing an inspirational reaffirmation of faith for you and for Christians the world over For decades Darwinian evolution has been taught in classrooms as gospel But now 150 years after the publication of Darwin's *The Origin of Species* renowned scientists are acknowledging that evolution is not only theory but speculation that has led to false conclusions about creation science and culture There is change in the wind As a scientist you grow to assume that science will answer everything and that religion is fictional There are mysteries that science cannot explain and divine inspiration may be a rational explanation Dr Andrew Parker Biologist Oxford University *The Death of Evolution* is not a broadside polemic against Darwinism Rather it is an inspirational reaffirmation of faith that will restore your sense of wonder and awe

**Uncommon Dissent** William Dembski, 2014-05-13 Recent years have seen the rise to prominence of ever more sophisticated philosophical and scientific critiques of the ideas marketed under the

name of Darwinism In *Uncommon Dissent* mathematician and philosopher William A Dembski brings together essays by leading intellectuals who find one or more aspects of Darwinism unpersuasive As Dembski explains Darwinism has gathered around itself an aura of invincibility that is inhospitable to rational discussion to say the least Darwinism its proponents assure us has been overwhelmingly vindicated Any resistance to it is futile and indicates bad faith or worse Indeed those who question the Darwinian synthesis are supposed in the famous formulation of Richard Dawkins to be ignorant stupid insane or wicked The hostility of dogmatic Darwinians like Dawkins has not however prevented the advent of a growing cadre of scholarly critics of metaphysical Darwinism The measured thought provoking essays in *Uncommon Dissent* make it increasingly obvious that these critics are not the brainwashed fundamentalist buffoons that Darwinism s defenders suggest they are but rather serious skeptical open minded inquirers whose challenges pose serious questions about the viability of Darwinist ideology The intellectual power of their contributions to *Uncommon Dissent* is bracing

*Stone Fort Boulderling* Andy Wellman,2010 *Throwing the Moral Dice* Thomas Claviez,Viola Marchi,2021-12-07 More than a purely philosophical problem straddling the ambivalent terrain between necessity and impossibility contingency has become the very horizon of everyday life Often used as a synonym for the precariousness of working conditions under neoliberalism for the unknown threats posed by terrorism or for the uncertain future of the planet itself contingency needs to be calculated and controlled in the name of the protection of life The overcoming of contingency is not only called upon to justify questionable mechanisms of political control it serves as a central legitimating factor for Enlightenment itself In this volume nine major philosophers and theorists address a range of questions around contingency and moral philosophy How can we rethink contingency in its creative aspects outside the dominant rhetoric of risk and dangerous exposure What is the status of contingency as the unnecessary and law defying in or for ethics What would an alternative ethics of contingency one that does not simply attempt to sublimate it out of existence look like The volume tackles the problem contingency has always posed to both ethical theory and dialectics that of difference itself in the difficult mediation between the particular and the universal same and other the contingent singularity of the event and the necessary generality of the norms and laws From deconstruction to feminism to ecological thought some of today s most influential thinkers reshape many of the most debated concepts in moral philosophy difference agency community and life itself Contributors tienne Balibar Rosi Braidotti Thomas Claviez Drucilla Cornell Hans Ulrich Gumbrecht
