**The Jews, the Holocaust, and the Public** Larissa Allwork, Rachel Pistol, 2019-11-25 This book explores the work and legacy of Professor David Cesarani OBE a leading British scholar and expert on Jewish history who helped to shape Holocaust research remembrance and education in the UK It is a unique combination of chapters produced by researchers curators and commemoration activists who either worked with and or were taught by the late Cesarani The chapters in this collection consider the legacies of Cesarani s contribution to the discipline of history and the practice of public history The contributors offer reflections on Cesarani s approach and provide new insights into the study of Anglo Jewish history

immigrants and minorities and the history and public legacies of the Holocaust

**Internment during the Second World War** Rachel Pistol,2017-09-07 The internment of enemy aliens during the Second World War was arguably the greatest stain on the Allied record of human rights on the home front Internment during the Second World War compares and contrasts the experiences of foreign nationals unfortunate enough to be born in the wrong nation when Great Britain and later the USA went to war While the actions and policy of the governments of the time have been critically examined Rachel Pistol examines the individual stories behind this traumatic experience The vast majority of those interned in Britain were refugees who had fled religious or political persecution in America the majority of those detained were children Forcibly removed from family friends and property internees lived behind barbed wire for months and years Internment initially denied these people the right to fight in the war and caused unnecessary hardships to individuals and families already suffering displacement because of Nazism or inherent societal racism In the first comparative history of internment in Britain and the USA memoirs letters and oral testimony help to put a human face on the suffering incurred during the turbulent early years of the war and serve as a reminder of what can happen to vulnerable groups during times of conflict Internment during the Second World War also considers how these tragedies of democracy have been remembered over time and how the need for the memorialisation of former sites of internment is essential if society is not to repeat the same injustices

**British Internment and the Internment of Britons** Gilly Carr,Rachel Pistol,2023-05-18 This edited volume presents a cutting edge discussion and analysis of civilian enemy alien internment in Britain the internment of British civilians on the continent and civilian internment camps run by the British within the wider British Empire The book brings together a range of interdisciplinary specialists including archaeologists historians and heritage practitioners to give a full overview of the topic of internment internationally Very little has been written about the experience of interned Britons on the continent during the Second World War compared with continentals interned in Britain Even fewer accounts exist of the regime in British Dominions where British guards presided over the camps This collection is the first to bring together the British experiences as the common theme in one study The new research presented here also offers updated statistics for the camps whilst considering the period between 1945 to the present day through related site heritage issues

*Statelessness after Arendt* Kolleen Guy,Jay Winter,2025-05-27 This book is a study of statelessness in the period of the Second World War It breaks new ground by focusing not on Europe but on the Asian and Pacific theatres of the conflict This perspective enables us to go beyond Hannah Arendt s classic account of statelessness in her *Origins of Totalitarianism* To her statelessness was the product of a failed European nation state system We find a very different story when we examine the history of stateless people many of them Jews fleeing to Asia from Europe In Asia we see that being stateless was not a uniform experience but a variety of possibilities reflecting the political structure of the states and cities in which refugees found shelter We find too that stateless people managed to enter the political realm long before they reached the threshold of citizenship
