Osterwald,2004-01-01 Guidebook describes scenic viewpoints plants wildlife geology history along the route Many photographs and maps **Quest for the Golden Circle** Arthur R. Gómez,2000 Until World War II the Four Corners Region where New Mexico Colorado Utah and Arizona meet was a collection of isolated rural towns In the postwar baby boom era however small communities like Farmington New Mexico became bustling municipalities with rapidly expanding economies In *Quest for the Golden Circle* Arthur Gomez traces the development of the Four Corners two industries mining and tourism to discover how each contributed to the economic and urban transformation of this region during the 1950s and 1960s Focusing on four cities Durango Colorado Moab Utah Flagstaff Arizona and Farmington New Mexico Gomez chronicles how these towns played key roles in the West s dramatic postwar expansion Cities such as Denver Albuquerque Phoenix Tucson El Paso and Salt Lake City all grew through use of the abundant petroleum uranium natural gas timber and other natural resources extracted from the Four Corners region But the energy boom in these towns was not to last With the arrival of foreign oil bringing economic growth to a halt in the early 1970s town leaders turned again to the land to stimulate their

economy This time the resource was a seemingly inexhaustible one tourism Gomez examines how business minded citizens marketed the area s scenic wonders and established the entire region as a tourist destination Their efforts were further assisted by the selection of stunning federal lands Mesa Verde Grand Canyon and Arches National Parks as treasures protected and promoted by the National Park Service Both mining and tourism however were beset by complex new problems and issues Extensive highways for instance were planned to bisect a Navajo reservation As Gomez illustrates the growing cities in the Four Corners region felt tremendous competing pressures between outside business powers and local needs as their extractive economy boomed and busted and as they then struggled to attract tourism dollars In addition he highlights the prominent roles played by federal agencies like the Atomic Energy Commission and the National Park Service in shaping regional destiny An outstanding analysis of the complexities of postwar development *Quest for the Golden Circle* successfully illuminates the history of one region within the larger story of the modern American West *La Herencia Del Norte* ,1998 Galvaland Magazine ,1958
