**Durbach Block** Harry Margalit, Philip Goad, 1999 Durbach Block the luminous space of abstraction **Architects for the New Millennium**, 2000 A celebration of architecture from around the world profiling today's leading firms The top one hundred firms **Australia** Harry Margalit, 2019-11-15 This book tells the story of the architects and buildings that have defined Australia's architectural culture since the founding of the modern nation through Federation in 1901 That year marked the beginning of a search for better city forms and buildings to accommodate the changing realities of Australian life and to express an emerging distinctive and eventually confident Australian identity While Sydney and Melbourne were the settings for many of the major buildings all states and territories developed architectural traditions based on distinctive histories and climates Harry Margalit explores the flowering of these many architectural variants from the bid to create a model city in Canberra through the stylistic battles that opened a space for modernism to the idealism of postwar reconstruction and beyond to the new millennium Australia reveals a vibrant and influential culture of the built environment at its best when it matches civic idealism with the sensuality of a country of stunning light and landscapes New Directions in Australian Architecture Philip Goad, Patrick Bingham-Hall, 2005 Showcasing the work of 14 of Australia's most exciting architectural firms the text and photos in this book point to a revolutionary design style Architects featured in the book include Andresen O Gorman ARM Donovan Hill Engelen Moore Sean Godsell Jones Coulter Young Lyons Architects Stutchbury each designer's chapter includes an introduction explaining the technique and importance of their work Mindful of history but with an eye toward the future the buildings in New Directions in Australian Architecture bring to readers the best of both worlds product description **Australian Architecture Now** Davina Jackson, Chris Johnson, 2000 Having just completed the most significant five year construction phase in the nation's history Australian architecture has moved into the world spotlight During the 1994-99 boom creative vigor was palpable confidence surged and the entire continent became endowed with a new sense of architectural independence Because it scans a diverse and momentary scene instead of recording a longer continuum of major achievements Australian Architecture Now is an unusual history book It presents two essays 21 case studies of outstanding public and domestic projects and in several brief chapters compares selected buildings according to similarities of either genre or style Close examination reveals surprising evidence that Australian architecture more often reflects the personal styles and attitudes of its creators than the poetic ideal of a unique sense of place Architects featured include Denton Corker Marshall Harry Seidler Gabriel Poole Rex Addison Peter Stutchbury Cox Sanderson Ness Nonda Katsalidis Sean Godsell Alexander Tzannes and more *Architectural Publications Index*, 2001 **Abstractions in Space** William J.
