Durkheimian School:

Emile Durkheim Peter Hamilton,1995 Completing the project of the earlier assessments these volumes concentrate on four themes the reception of Durkheim s work during his life the relationship between his ideas and French society his influence on his followers and his relevance today **For Durkheim** Edward A. Tiryakian,2016-12-05 For Durkheim is a timely and original contribution to the debate about Durkheim at a time when his concerns on ethics morality and civil religion have much relevance for our own troubled and divided society It includes two new essays from Edward A Tiryakian s collection on the Danish Muhammad cartoons and September 11th providing contemporary relevance to the debate and an analytical and interpretive introduction indicating the ongoing importance of Durkheim within sociology This indispensable volume for all serious Durkheim scholars includes English translations of papers previously published in French for the first time and will be of interest to sociologists anthropologists social historians and those interested in critical questions of modernity **The Durkheimian School** ,1977-09-26 [The Oxford Handbook of Émile Durkheim](#) Hans Joas,Andreas Pettenkofer,2024 mile Durkheim remains one of the most controversial and one of the most deeply misunderstood classics of social theory The Oxford Handbook of mile Durkheim takes stock of the different recent debates on Durkheimian sociology and makes them accessible to a wide audience spanning various disciplines this includes crucial debates that due to language barriers are not easily accessible for an English reading public In doing so this volume is an important resource for all scholars and students looking to understand Durkheimian sociology [Durkheim, the Durkheimians, and the Arts](#) Alexander Tristan Riley,William Watts Miller,W. S. F. Pickering,2013-08-01 Using a broad definition of the Durkheimian tradition this book offers the first systematic attempt to explore the Durkheimians engagement with art It focuses on both Durkheim and his contemporaries as well as later thinkers influenced by his work The first five chapters consider Durkheim s own exploration of art the remaining six look at other Durkheimian thinkers including Marcel Mauss Henri Hubert Maurice Halbwachs Claude L vi Strauss Michel Leiris and Georges Bataille The contributors scholars from a range of theoretical orientations and disciplinary perspectives are known for having already produced significant contributions to the study of Durkheim This book will interest not only scholars of Durkheim and his tradition but also those concerned with aesthetic theory and the sociology and history of art **Durkheimian Studies** ,2001 *Contributions to L'Année Sociologique* Emile Durkheim,2008-06-30 These reviews notices and introductory sections by a major figure in intellectual history represent more than a decade of effort to define and clarify a new form of scientific investigation Together they offer a suggestive new picture of Emile Durkheim as Scholarch of the French School and master of a whole school of social thought For fifteen years Emile Durkheim worked on the journal L Annee Sociologique selecting editing writing and shaping the goals and methods of the French School of sociology Now Durkheim s own contributions to L Annee are available in English Classified and explained by Durkheim scholar Yash Nandan this useful collection clarifies the role of L Annee Sociologique in the

development of scientific sociology the position of L Annee in the body of Durkheim s own work and the development of Durkheim s ideas the importance and function of Durkheim s categories of sociological data Durkheim s view of contemporaries including Simmel Westermarck Tarde Glotz and Steinmetz the exchange of ideas between historians and the L Annee group and the reasons for L Annee s reputation as a unique publication in the history of sociology Professor Nandan has organized this material according to Durkheim s own classification system with major sections on the concepts and methodologies of general juridic and moral sociology criminal sociology and the statistics on morals Subdivisions treat issues in law suicide social political and domestic organization juridic and moral systems the social contexts of crime the sociology of knowledge political sociology social history and historical sociology *For Durkheim* Edward A. Tiryakian,2009 For Durkheim is a collection of essays written by the author over the past 40 years and follows in the footsteps of previous volumes on For Marx and For Weber Many of the essays are either difficult to find or were not widely disseminated at the time of publication and now come together in this comprehensive collection **Durkheim** Frank Parkin,1992 Emile Durkheim is the sociologist who raised to pre eminence the question of what makes society possible While he placed great stress on the necessity of normative consensus in maintaining order and stability he did not see the solution to the problem as an exclusively moral one *MORAL EDUCATION* Emile Durkheim,1973-10 18 lectures by an influential theorist who discusses school as an appropriate setting for moral education A pioneer of sociology Durkheim explains the first element in fostering morality as the development of a sense of discipline followed by a willingness to behave in accordance with collective interest and a sense of autonomy Émile Durkheim, Contributions to L'Année Sociologique Émile Durkheim,1980 **Contemporary Sociological Theories** Pitirim Aleksandrovich Sorokin,1928 Victorian Totalities Maria Su Wang,2008 **Defending the Durkheimian Tradition** Jonathan S. Fish,2017-03-02 This book provides an exciting accessible and wide ranging guide to the development of classical and contemporary Durkheimian thought Jonathan Fish offers a re reading of the writings of Emile Durkheim and Talcott Parsons on religion He aims to move beyond rationalistic readings which have neglected the key significance of collective human emotion in Durkheim s accounts of the link between society religion and morality He goes on to look at the development of these ideas in the work of Parsons and more recent Durkheimian thinkers Making an important contribution both to studies of Durkheim and the Durkheimian tradition and to the sociology of emotion the book is distinctive in arguing that religion is an essential backdrop for understanding emotion In making this claim the author provides a key to re establishing links between the sociology of religion and the wider discipline of sociology **Emile Durkheim** Robert T. Hall,1987-11-13 This work examines Durkheim s concern with the sociology of morals and demonstrates the importance of this orientation of his social theory which until now has been vastly underrated In addition it emphasizes the problematic relationship between sociology and philosophical ethics which served as a motivating force in Durkheim s thought *History of Sociological Thought* Jerzy Szacki,1979

Suicide in French Thought from Montesquieu to Cioran Zilla Gabrielle Cahn,1998 Suicide stems in large part from the human condition and as such is not a problem that can be solved Former draconian and punitive laws against it have in the main been eliminated but it remains a stigma and a heartache In the twentieth century suicide has become a problem for sociologists psychiatrists and social policymakers to solve In past centuries however suicide was a subject most fit for philosophers theologians writers and as the nineteenth century progressed physicians What establishes itself clearly throughout is that social attitudes and public policies toward suicide as toward other important human issues mirror the needs and peculiar circumstances of a culture Yet sanctions against suicide except in highly prescribed instances transcend cultural specificity To the question when if ever is suicide permissible Western peoples and institutions both secular and religious reply never Duty to others to God to society or to all of these virtually always overrides personal desire or reasons to commit suicide

The Academic Study of Religion During the Cold War Iva Dolezalova,Luther H. Martin,Dalibor Papoušek,2001 While the academic study of religion in the former Soviet Union had to contend with an official ideology of scientific atheism such study in the West particularly in the United States was being re invented in the 1960s during the very midst of the Cold War The twenty one contributions to this volume by scholars from North America Europe Russia and eastern Europe examine the ideological and theological influences on the academic study of religion during the period from 1945 to 1989 and thus raise the question of whether an academic study of religion Religionswissenschaft might be defined in ways that avoid the extremes of both ideology and theology
