Ryle,2021-08-16 This remember is the first step in religion which a child is able to take Long before he can read you can teach him to kneel by his mother s side and repeat the simple words of prayer and praise which she puts in his mouth And as the first steps in any undertaking are always the most important so is the manner in which your children s prayers are prayed a point which deserves your closest attention Few seem to know how much depends on this You must beware lest they get into a way of saying them in a hasty careless and irreverent manner You must beware of giving up the oversight of this matter to servants and nurses or of trusting too much to your children doing it when left to themselves I cannot praise that mother who never looks after this most important part of her child s daily life herself Surely if there be any habit which your own hand and eye should help in forming it is the habit of prayer Believe me if you never hear your children pray yourself you are much to blame You are little wiser than the bird described in Job which leaves her eggs in the earth and warms them in the dust and forgets that the foot may crush them or that the wild beast may break them She is hardened against her young ones as though they were not hers her labor is in vain without fear Prayer is of all habits the one which we recollect the longest Many a grey headed man could tell you how his mother used to make him pray in the days of his childhood Other things have passed away from his mind perhaps The church where he was taken to worship the minister whom he heard preach the companions who used to play with him all these it may be have passed from his memory and left no mark behind But you will often find it is far different with his first prayers He will often be able to tell you where he knelt and what he was taught to say and even how his mother looked all the while It will come up as fresh before his mind s eye as if it was but yesterday
