Dying Fall:

A Dying Fall Elly Griffiths, 2013 Forensic archeologist Ruth Galloway investigates her most heart stopping case to date after an old university friend and fellow archeologist is murdered in an arson attack Faulkner Studies in Japan Thomas L. McHaney, Kenzaburo Ohashi, Kiyoyuki Ono, 2008-11-01 The universality of William Faulkner's vision was perhaps most formally recognized in 1950 when he was awarded the Nobel Prize for Literature But even beyond the basic human truths embodied in the people and terrain of Yoknapatawpha County there is a special kinship between Faulkner's novels and stories of the defeated South and the culture of postwar Japan itself reeling from the shock of surrender and reconstruction at the hands of a foreign army Reflecting this kinship Faulkner Studies in Japan brings together some of the finest critical essays on Faulkner published in Japan in recent years along with discussions by several of Japan's leading novelists of Faulkner's influence on their work The collection includes essay on broad aspects of Faulkner's writing the influence of T S Eliot on the fiction the pervasive use of motion imagery and on such individual works as *Light in August* and the story of *Was from Go Down Moses* The book also presents an overview of Faulkner scholarship in Japan by Kiyoyuki Ono and an Afterword by Carvel Collins that recalls Faulkner's visit to Japan in 1955 At the time of Faulkner's visit Japanese scholarly interest in his works was already firmly established and in the succeeding years the fascination has if anything increased Commemorating the thirtieth anniversary of Faulkner's four week tour Faulkner Studies in Japan explore the natural literary sympathy that the novelist himself recognized when he stated I believe that something very like what happened in the American South will happen here in Japan in the next few years that out of your despair and disaster will come a group of Japanese writers whom all the world will want to listen to who will speak not a Japanese truth but a universal truth Epic Negation C.D. Blanton, 2015-03-12 The history of the epic ranging from the heroic narratives of cultural origin found in Homer and Virgil to the tumultuous theological and political conflicts depicted by Dante or Milton is nearly as old as literature itself But the epic is also made and remade by its present adapted to the pressures and formal necessities of its particular cultural moment Examining modernist poetry's epic turn in the years between the two World Wars C D Blanton's ambitious study charts the inversion of what Ezra Pound called a poem including history into a fractured and hollowed form a negated epic that struggles not only to acknowledge the distant past but also to conceive its immediate present Compelled to register the force of a larger historical totality it cannot directly represent the negated epic reorients the function of poetic language trading expression or signification for concrete but often buried reference remaking the poem as an instrument of dialectical reason in the process Epic Negation turns first to T S Eliot productively pairing *The Waste Land* with *The Criterion* the literary review it announced in 1922 to argue that Eliot's journal systematically realizes the editorial and critical method through which modernism's epochal poem sought to think its moment whole developing a totalizing account of interwar culture Dividing the epic's critical function from its style *The Criterion* not only includes history differently but also formulates an

intricately dialectical account of the crisis facing bourgeois society formed in the image of a Marxism it opposes World War II s approach serves to organize the second half of Blanton s study as he traces the dislocated formal effects of a serial epic gone underground In the tense elegies and pastorals of W H Auden and Louis MacNeice lyric forms cryptically divulge the determining force of unmentionable but universal events dividing experience against consciousness what can be said in a poem from what cannot And finally with H D s Trilogy written under bombardment in a terse exchange with Freud s famous rewriting of biblical history in Moses and Monotheism the poetic image itself lapses consigning epic to the silent historical force of the unconscious Uniquely conceived and deftly executed Epic Negation transforms our understanding of modernist poetics and the concept of epic more broadly
