The Dylan Thomas Omnibus Dylan Thomas, 2000-08-17 This is a rich collection of Dylan Thomas's best loved poems and stories as well as pieces he wrote for radio and magazines. The selection spans Thomas's writing lifetime and it shows the full range of this tempestuous and meticulous artist who once cheerfully claimed that he had beast, angel and madman within him.

Thomas Omnibus Dylan Thomas, 1995 *Out of the Ordinary* Marc Stears, 2021-01-12 From a major British political thinker and activist, a passionate case that both the left and right have lost their faith in ordinary people and must learn to find it again. This is an age of polarization. It's us vs them. The battle lines are clear and compromise is surrender. As *Out of the Ordinary* reminds us, we have been here before. From the 1920s to the 1950s, in a world transformed by revolution and war, extreme ideologies of left and right fueled utopian hopes and dystopian fears. In response, Marc Stears writes a group of British writers, artists, photographers and filmmakers showed a way out. These men and women, including J.B. Priestley, George Orwell, Barbara Jones, Dylan Thomas, Laurie Lee and Bill Brandt, had no formal connection to one another. But they each worked to forge a politics that resisted the empty idealisms and totalizing abstractions of their time. Instead, they were convinced that people going about their daily lives possess all the insight, virtue and determination required to build a good society. In poems, novels, essays, films, paintings and photographs, they gave witness to everyday people's ability to overcome the supposedly insoluble contradictions between tradition and progress, patriotism and diversity, rights and duties, nationalism and internationalism, conservatism and radicalism. It was this humble vision that animated the great Festival of Britain in 1951 and put everyday citizens at the heart of a new vision of national regeneration. A leading political theorist and a veteran of British politics, Stears writes with unusual passion and clarity about the achievements of these apostles of the ordinary. They helped Britain through an age of crisis. Their ideas might do so again in the United Kingdom and beyond. **Lonely**

Planet Wales Lonely Planet, *Keats-Shelley Review*, 1986 **In My Own Shire** Stephen Wade, 2002-12-30 In this survey of British regional writing, Wade, English U of Huddersfield, UK, traces the invention of literary regional identity to the modern, postmodern view of regional attachment as an outmoded romantic concept. Writing that belonging is arguably the most elusive, weasel word in the English vocabulary and referring to Matthew Arnold's center-periphery distinction, the author notes parallels in popular culture and history in studying key writers linked with particular regions, e.g. the Brontë sisters as natives of 19th-century Yorkshire, non-native James Hanley's *The Welsh Sonata* 1954 and Liverpool Mersey Sound poets represented in Penguin *Modern Poets* 10 1967. With regional fiction gracing recent bestseller lists, he concludes that regional
