The Handbook of Technology and Second Language Teaching and Learning Carol A. Chapelle, Shannon Sauro, 2017-06-28

The Handbook of Technology and Second Language Teaching and Learning presents a comprehensive exploration of the impact of technology on the field of second language learning. The rapidly evolving language technology interface has propelled dramatic changes in and increased opportunities for second language teaching and learning. Its influence has been felt no less keenly in the approaches and methods of assessing learners' language and researching language teaching and learning. Contributions from a team of international scholars make up the Handbook, consisting of four parts: language teaching and learning through technology; the technology pedagogy interface; technology for L2 assessment and research; and development of technology for language learning. It considers how technology assists in all areas of language development, the emergence of pedagogy at the intersection of language and technology, technology in language assessment, and major research issues in research and development of technologies for language learning. It covers all aspects of language, including grammar, vocabulary, reading, writing, listening, speaking, pragmatics, and intercultural learning, as well as new pedagogical and assessment approaches and new ways of conceiving and conducting research and development. The Handbook of Technology and Second Language Teaching and Learning demonstrates the extensive, multifaceted implications of technology for language teachers, learners, materials developers, and researchers.

**Language Teaching and Language Technology** Arthur van Essen, Sake Jager, John Nerbonne, 2014-03-05. This text assesses the importance of language technology to increasingly popular computer-assisted language learning work. The book contains writings on pronunciation, vocabulary, grammar, reading, writing, testing, distance learning, and user studies.

**Pacific Rim Objective Measurement Symposium (PROMS) 2012 Conference Proceeding** Quan Zhang, Hong Yang, 2013-06-13. Entrusted by the Board of Management of the Pacific Rim Objective Measurement Symposium, PROMS 2012 is held in Jiaying, China, from August 6-9, 2012. Over the past years, PROMS has been hosted in many parts of the Pacific Rim, including Singapore, Malaysia, Hong Kong, Taiwan, and Tokyo, which has greatly promoted the research of and contributed to the development of the Rasch Model in one way or another. As early as in the 1980s, the ideas and concepts regarding IRT were first introduced into China by Prof. Gui Shichun, my Ph.D. supervisor, and it is Prof. Gui who first conducted with great success the ten-year-long 1990-1999 Equating Project for Matriculation English Test (MET) in China. MET is the most influential entrance examination for higher education administered annually to over 3.3 million candidates. Then, the Equating Project won recognition by Charles Alderson and other foreign counterparts during the 1990s. Academically, those were Good Old Days for Chinese testing experts and psychometricians. Then, for certain reasons, the equating practice abruptly discontinued. Therefore, in China nowadays, the application of IRT-based software like BILOG Parscale Iteman 4 and others to real testing problem solving is confined to an extremely small band of people. In this sense, PROMS 2012 meets an important need in that it provides an excellent

introduction of IRT and its application And anyone who is seriously interested in research and development in the field of psychometrics or language testing will find such a symposium and related workshops to be an excellent source of information about the application of Rasch Model PROMS2012 focuses on recent advances in objective measurement and provides an international forum on both the latest research in using Rasch measurement and non Rasch practice *Smithsonian Meteorological Tables* Smithsonian Institution,1918 *Smithsonian Miscellaneous Collections* ,1918 **Smithsonian Meteorological Tables** ,1918 **A New English Dictionary on Historical Principles: part 1.
