Marcel Duchamp is often viewed as an artist engineer scientist a kind of rationalist who relied heavily on the ideas of the French mathematician and philosopher Henri Poincaré Yet a complete portrait of Duchamp and his multiple influences draws a different picture In his 3 Standard Stoppages 1913 1914 a work that uses chance as an artistic medium we see how far Duchamp subverted scientism in favor of a radical individualistic aesthetic and experimental vision Unlike the Dadaists Duchamp did more than dismiss or negate the authority of science He pushed scientific rationalism to the point where its claims broke down and alternative truths were allowed to emerge With humor and irony Duchamp undertook a method of artistic research reflection and visual thought that focused less on beauty than on the notion of the possible He became a passionate advocate of the power of invention and thinking things that had never been thought before The 3 Standard Stoppages is the ultimate realization of the play between chance and dimension visibility and invisibility high and low art and art and anti art Situating Duchamp firmly within the literature and philosophy of his time Herbert Molderings recaptures the spirit of a frequently misread artist and his thrilling aesthetic of chance **Marcel Duchamp and the Art of Life** Jacquelynn Baas,2019-11-19 A groundbreaking reading of Duchamp s work as informed by Asian esoterism energetic spiritual practices identifying creative energy with the erotic impulse Considered by many to be the most important artist of the twentieth century the object of intensive critical scrutiny and extensive theorizing Marcel Duchamp remains an enigma He may be the most intellectual artist of all time and yet toward the end of his life he said If you wish my art would be that of living each second each breath is a work which is inscribed nowhere which is neither visual or cerebral In Marcel Duchamp and the Art of Life Jacquelynn Baas offers a groundbreaking new reading of Duchamp arguing in particular that his work may have been informed by Asian esoterism energetic spiritual practices that identify creative energy with the erotic impulse Duchamp drew on a wide range of sources for his art from science and mathematics to alchemy Largely overlooked until now have been Asian spiritual practices including Indo Tibetan tantra Baas presents evidence that Duchamp s version of artistic realization was grounded in a western interpretation of Asian mind training and body energetics designed to transform erotic energy into mental and spiritual liberation She offers close readings of many Duchamp works beginning and ending with his final work the mysterious shockingly explicit tant donn s 1 la chute d eau 2 le gaz d éclairage Given 1 The Waterfall 2 The Illuminating Gas Generously illustrated with many images in color Marcel Duchamp and the Art of Life speculates that Duchamp viewed art making as part of an esoteric continuum grounded in Eros It asks us to unlearn what we think we know about both art and life in order to be open to experience *Dada Culture* ,2016-08-01 How Dada is to break its cultural accommodation and containment today necessitates thinking the historical instances through revised application of critical and theoretical models The volume *Dada Culture Critical Texts on the Avant Garde* moves precisely by this motive bringing

together writings which insist upon the continuity of the early twentieth century moment now at the start of the twenty first Engaging the complex and contradictory nature of Dada strategies instanced in the linguistic gaming and performativity of the movement s initial formation and subsequently isolating the specific from the general with essays focusing on Ball Tzara Serner Hausmann Dix Heartfield Schwitters Baader Cravan and the exemplary Duchamp the political philosophy of the avant garde is brought to bear upon our own contemporary struggle through critical theory to comprehend the cultural usefulness relevance validity and effective or otherwise oppositionality of Dada s infamous anti stance The volume is presented in sections that progressively point towards the expanding complexity of the contemporary engagement with Dada as what is often exhaustive historical data is forced to rethink realign and reconfigure itself in response to the analytical rigour and exercise of later twentieth century animal anarchic thought the testing and cultural placement of thoughts upon the virtual and the eventual implications for the once blissfully unproblematic idea of expression From the opening provocative proposition that historically Dada may have been the falsest of all false paths the volume rounds to dispute such condemnation as demarcation continues not only of Dada s embeddedness in western culture but more precisely of the location of Dada culture Ten critical essays by Cornelius Partsch John Wall T J Demos Anna Schaffner Martin I Gaughan Curt Germundson Stephen C Foster Dafydd Jones Joel Freeman and David Cunningham are supplemented by the critical bibliography prepared by Timothy Shipe which documents the past decade of Dada scholarship and in so doing provides a valuable resource for all those engaged in Dada studies today
