Dukes Gold:

Memoirs of the Dukes of Urbino, Volume I (of 3) James Dennistoun, 2013 Memoirs of the Dukes of Urbino Volume I of 3 But Dennistoun's Dukes of Urbino is not merely a history of the houses of Montefeltro and Della Rovere of their famous and most brilliant Court and of that part of Italy over which they held dominion but really a work in belles lettres too discursive and amusing as well as instructive It deals not merely with history as it seems we have come to understand the word a thing of politics in this case the futile and childish politics of the fifteenth and sixteenth centuries in Italy but illustrates the arms arts and literature of Italy from 1440 to 1630 And indeed this programme was carried out as well as it could be carried out at the time these volumes were written The book which has long been almost unprocurable is full as it were of a great leisure crammed with all sorts of out of the way learning and curious tales and adventures Sometimes failing in art and often we may think in judgment Dennistoun never fails in this that he is always interested in the people he writes of interested in their quarrels and love affairs their hair breadth escapes and good fortunes How eagerly he sides with Duke Guidobaldo chased out of his city of Urbino by Cesare Borgia It is as though he were assisting at that sudden flight at midnight and whole heartedly the Duke's man as he was almost fails to understand what Cesare was aiming at and quite fails to see what Cesare saw too well the helplessness of Italy at the mercy really of the unconscious nations of the modern world Such failures as this make his work indispensable as it is less valuable than it might have been but they by no means detract from the general interest of the story That is a quarry from which much has been hewn and a good many of those enduring blocks which go to make up so popular and charming a work as John Inglesant came in the first instance from Dennistoun's volumes *Memoirs of the Dukes of Urbino* James Dennistoun, 1909 **The American Shorthorn Herd Book**, 1901

The Royal Dukes and Princesses of the Family of George III. Percy Fitzgerald, 1882 **Extra Series**, 1906 Cassell's storehouse of general information Cassell Ltd, 1892 *Hakluytus Posthumus* Hakluyt Society, Samuel Purchas, 1906 *The Mathematics of Egypt, Mesopotamia, China, India, and Islam* Victor J. Katz, Annette Imhausen, 2007-08-05 In recent decades it has become obvious that mathematics has always been a worldwide activity But this is the first book to provide a substantial collection of English translations of key mathematical texts from the five most important ancient and medieval non Western mathematical cultures and to put them into full historical and mathematical context The Mathematics of Egypt Mesopotamia China India and Islam gives English readers a firsthand understanding and appreciation of these cultures important contributions to world mathematics The five section authors Annette Imhausen Egypt Eleanor Robson Mesopotamia Joseph Dauben China Kim Plofker India and J Lennart Berggren Islam are experts in their fields Each author has selected key texts and in many cases provided new translations The authors have also written substantial section introductions that give an overview of each mathematical culture and explanatory notes that put each selection into context This authoritative commentary allows readers to understand the sometimes unfamiliar mathematics of these civilizations and

the purpose and significance of each text Addressing a critical gap in the mathematics literature in English this book is an essential resource for anyone with at least an undergraduate degree in mathematics who wants to learn about non Western mathematical developments and how they helped shape and enrich world mathematics The book is also an indispensable guide for mathematics teachers who want to use non Western mathematical ideas in the classroom **The Sphere** ,1910
