## Dupont Circle:

*Dupont Circle, Washington, D.C.* George J. Olszewski, 1967      [A History of Dupont Circle](#) Stephen A Hansen, 2014-09-23

During the Gilded Age Dupont Circle was Washington's undisputed center of wealth power and status. Over twenty years it evolved from small farms and an overrun city cemetery to a community of grand homes for society's elite. Residents included future president William Taft, inventor Alexander Graham Bell, newspaper publisher Cissy Patterson, and many more. From the intimate dinners and receptions of the Cave Dwellers to the lavish balls of Mary Townsend and others in the smart set, Dupont Circle marked each social season in the capital. Satirized in Mark Twain's novel *The Gilded Age*, the nouveau riche lifestyle of Dupont Circle was fodder for newspaper celebrity gossip. Author Stephen Hansen brings to life the intriguing history of Washington's famed Dupont Circle.

**History of the Dupont Circle Neighborhood, Washington, D.C., 1880-1900** Walter Steven Albano, 1982      **Dupont Circle** Paul Kelsey Williams, 2000

From the vast estates of the mid 1800s to the rowhouses built at the end of the 19th century from Charles Lindbergh's balcony address at the Patterson House to the various political rallies staged in the urban neighborhood, Washington D.C.'s Dupont Circle has for many years been at the center of a rich history. Boasting a fascinating heritage of architectural, cultural, and political activity and diversity, the Dupont Circle neighborhood has played a part in the great story of the capital city and has witnessed many of the people and events that have challenged our national community. Following the area's use as a Civil War encampment, Dupont Circle slowly began to develop a more urban character. At the neighborhood's social zenith in the early 1900s, gracious mansions surrounding the circle hosted lavish parties attended by diplomats, presidents, and wealthy socialites. The photographs in this informative visual history capture the elegant homes that were later replaced by office buildings and the fashionable era that was soon to fade. Rare World War II images of former mansions used as rooming houses bring readers into the 20th century along with the early 1960s photographs of gay activists who gathered at the circle and began the modern restoration of the neighborhood.

[Historic Capital](#) Cameron Logan, 2017-12-19

Washington D.C. has long been known as a frustrating and sometimes confusing city for its residents to call home. The monumental core of federal office buildings, museums, and the National Mall dominates the city's surrounding neighborhoods and urban fabric. For much of the postwar era, Washingtonians battled to make the city their own, fighting the federal government over the basic question of home rule: the right of the city's residents to govern their local affairs. In *Historic Capital*, urban historian Cameron Logan examines how the historic preservation movement played an integral role in Washingtonians claiming the city as their own.

Going back to the earliest days of the local historic preservation movement in the 1920s Logan shows how Washington D C s historic buildings and neighborhoods have been a site of contestation between local interests and the expansion of the federal government s footprint He carefully analyzes the long history of fights over the right to name and define historic districts in Georgetown Dupont Circle and Capitol Hill and documents a series of high profile conflicts surrounding the fate of Lafayette Square Rhodes Tavern and Capitol Park SW before discussing D C today Diving deep into the racial fault lines of D C Historic Capital also explores how the historic preservation movement affected poor and African American residents in Anacostia and the U Street and Shaw neighborhoods and changed the social and cultural fabric of the nation s capital Broadening his inquiry to the United States as a whole Logan ultimately makes the provocative and compelling case that historic preservation has had as great an impact on the physical fabric of U S cities as any other private or public sector initiative in the twentieth century
