Dying and Dead Seas Climatic Versus Anthropic Causes Jacques C.J. Nihoul, Peter O. Zavialov, Philip P. Micklin, 2012-12-06 There are incentive indications that the growth of human population the increasing use and abuse of natural resources combined with climate changes probably due to anthropic pollution to some extent exert a considerable stress on closed or semi enclosed seas and lakes In many regions of the world marine and lacustrine hydrosystems are or have been the object of severe or fatal alterations from changes in regional hydrological regimes and or modifications of the quantity or the quality of water resources associated with natural or man made land reclamation deterioration of geochemical balances increased salinity oxygen s depletion mutations of ecosystems eutrophication dramatic decrease in biological diversity to geological disturbances and to the socio economic perturbations which have been or may be in the near future the consequences of them Seas and lakes are dying all over the world and some may be regarded as already dead and there is an urgent need to try to understand how this is happening and identify the causes of the observed mutations weighing the relative effects of climatic evolution and anthropic interferences This book is the outcome of the NATO Advanced Research Workshop held in Liege in May 2003 The Workshop was organized at th the University of Liege as a follow on meeting to the 35 International Liege Colloquium on Ocean Dynamics dedicated in 2003 to Dying and Dead Seas The book contains the synthesis of the lectures given by 16 main speakers during the ARW *The Dead Sea* Nir Arielli, 2025-01-28 A human history of one of the planet s most iconic lakes and the civilizations that surrounded its shores The Dead Sea is a place of many contradictions Hot springs around the lake are famed for their healing properties though its own waters are deadly to most lifeforms even so civilizations have built ancient cities and hilltop fortresses around its shores for centuries The protagonists in its story are not only Jews and Arabs but also Greeks Nabataeans Romans Crusaders and Mamluks Today it has become a tourist hotspot but its drying basin is increasingly under threat In this panoramic account Nir Arielli explores the history of the Dead Sea from the first Neolithic settlements to the present day Moving through the ages Arielli reveals the religious economic military and scientific importance of the lake which has been both a source of great wealth and a site of war The Dead Sea weaves together a tapestry of the lake s human stories and amidst environmental degradation and renewed conflict makes a powerful case for why it should be saved Nir Arielli explores the history of the Dead Sea from the first Neolithic settlements to the present day He reveals the religious economic and scientific importance of the lake to the many civilizations which have lived around its shores and amidst ecological collapse and renewed conflict makes a powerful case for why it should be saved **A Multi-component Chemistry-based Model for the Dead Sea** Ittai Gavrieli, 2006 *Saline Lakes Around the World*, 2009 **The Rough Guide to Jordan** Matthew Teller, 2013-01-17 The Rough Guide to Jordan is the definitive guide to the most alluring corner of the Middle East Detailed accounts of every attraction along with crystal clear maps and plans lift the lid on this fascinatingly diverse country Explore
