Barbaras Escape:

Nature and Logos William S. Hamrick, Jan Van der Veken, 2012-01-02 This is the first booklength account of how Maurice Merleau Ponty used certain texts by Alfred North Whitehead to develop an ontology based on nature and how he could have used other Whitehead texts that he did not know in order to complete his last ontology This account is enriched by several of Merleau Ponty s unpublished writings not previously available in English by the first detailed treatment of certain works by F W J Schelling in the course of showing how they exerted a substantial influence on both Merleau Ponty and Whitehead and by the first extensive discussion of Merleau Ponty s interest in the Stoics s notion of the twofold logos the logos endiathetos and the logos proforikos This book provides a thorough exploration of the consonance between these two philosophers in their mutual desire to overcome various bifurcations of nature and of nature from spirit that continued to haunt philosophy and science since the 17th century Minnesota reports ,1903 **Minnesota Reports** Minnesota. Supreme Court,1903

The God Who Lives Adam Pryor, 2014-01-13 Christian theology has affirmed throughout its history that God is a living God But what does it mean that God lives Why does it matter Does God live like us If God does not live like us what is the difference between our living and God s living These are the questions Adam Pryor addresses in *The God Who Lives* The book considers life as a conceptual problem examining how new studies about the emergence of life have critical implications for interpreting the religious symbol God is living In particular Pryor suggests how absence and desire what is termed abstential desire are critical principles of life for scientific and philosophical thinking today He goes on to develop a constructive theological proposal in which the theological meaning of the symbol God is living is interpreted in terms of the insights garnered from the principle of abstential desire concluding that God can be understood as akin to the role played by absence in living things Life is an absent but effective whole in relation to the material parts of which it is comprised God as living is a similarly effective absence in relation to the world *Things Seen and Unseen* Orion Edgar, 2016-04-18 The philosophy of Maurice Merleau Ponty was developing into a radical ontology when he died prematurely in 1961 Merleau Ponty identified this nascent ontology as a philosophy of incarnation that carries us beyond entrenched dualisms in philosophical thinking about perception the body animality nature and God What does this ontology have to do with the Catholic language of incarnation sacrament and logos on which it draws In this book Orion Edgar argues that Merleau Ponty s philosophy is dependent upon a logic of incarnation that finds its roots and fulfillment in theology and that Merleau Ponty drew from the Catholic faith of his youth Merleau Ponty s final abandonment of Christianity was based on an understanding of God that was ultimately Kantian rather than orthodox and this misunderstanding is shared by many thinkers both Christian and not As such Merleau Ponty s philosophy suggests a new kind of natural theology one that grounds an account of God as ipsum esse subsistens in the questions produced by a phenomenological account of the world This philosophical ontology also offers to Christian theology a route away from dualistic compromises and back to its own deepest insight *The Adelphean* Alpha
