do canonical formations tend to overwrite or obscure less visible efforts to create and promote material for the young These are the driving questions of *Alt Kid Lit: What Children's Literature Might Be* Contributors to the volume offer theoretical meditations on the category of children's and young adult literature as well as case studies of materials that complicate our understanding of such Chapters attend to a diverse array of subjects including the non places of children's literature child mediums Black theater for children children's interpretive drawings fanfiction Latinx Indigenous and silkpunk speculative fiction environmental zines sh nen anime Jim Henson's *The Dark Crystal* South Asian television and emergency children's literature The book also features interviews with two experimental writers about genre and alt publishing and a roundtable conversation on video games and children's digital engagements Building on diverse approaches including queer theory and postcolonial studies *Alt Kid Lit* shines light on materials methodologies and epistemologies that are sometimes underacknowledged in the field of children's and young adult literature studies

*Situational Context of Education* Maria Estela Brisk, Angela Burgos, Sara Ruth Hamerla, 2004-05-20 This book gives educators important answers to the urgent question of how teachers and schools can facilitate language minority and immigrant students progress in school It offers an innovative and powerful method teachers and students can use to study the situational context of education providing both the theoretical background and the practical tools to implement this approach The situational context of education includes linguistic economic social cultural and political factors as well as conditions such as students personal characteristics family support and quality of instruction All of these factors influence the lives of students and their academic performance and contribute in many ways some subtle and indirect to making the educational experience more or less difficult for different students The premise of the book is that objective study of the situational context of education by both students and teachers is beneficial because it leads to a more realistic view of how to facilitate students progress in school Designed as a text for graduate courses for preservice and in service teachers working with students in bilingual ESL mainstream and special education classrooms the goal is to engage readers in learning not only from the literature but also from studying the situational contexts of their own students The focus here is on the factors that affect language minority and immigrant students in the United States but the framework is equally powerful for work with student populations in other social contexts The Introduction includes an overview of the theory behind the study of the situational context of education and the implementation of this approach describes the context of the pilot lessons included in the book and explains how to use the lessons detailed in later chapters Chapters 2-6 focus on different factors in the situational context of education linguistic economic social cultural and political A three part structure is used Classroom Implementation a rich description of one lesson in a real classroom Context Variables a theoretical explanation of the specific factor the chapter addresses providing the research basis for the sample lesson objectives Doing Analysis of the Context several sample lessons for implementation The lessons are addressed to the teacher with detailed ideas on how to carry out the lesson and evaluate the students

understanding of the situational context Five Appendices provide helpful resources for the implementation of the lessons an Annotated bibliography of relevant K 12 children s literature Instructional Approaches Scoring Rubrics for Content Objectives Guidelines for a Contrastive Study of Situational Context and Lesson Template The lessons have been thoroughly field tested with students and teachers Because these lessons work on multiple levels Situational Context of Education A Window Into the World of Bilingual Learners benefits students from first grade through preservice and in service teachers in university courses Teachers get to know their students and their predicaments within the social context of the United States and at the same time the lesson activities have a great impact on the students in their classes All are helped to achieve academically while gaining awareness of situational factors affecting their lives

**Multicultural Literature for Children and Young Adults** Mingshui Cai,2002-10-30 There is much discussion of multiculturalism in education This is especially true of multicultural literature for children and young adults The rise of multicultural literature is a political rather than a literary movement it is a movement to claim space in literature and in education for historically marginalized social groups rather than one to renovate the craft of literature itself Multicultural literature has been closely bound with the cause of multiculturalism in general and thus has been confronted with resistance from conservatives This book discusses many of the controversial issues surrounding multicultural literature for children and young adults The volume begins with a look at some of the foundational and theoretical issues related to multicultural literature The second part of the book addresses issues related to the creation and critique of multicultural literature including the authorship of such works and the role of the reader in determining whether or not a work is multicultural The third looks at the place of multicultural literature in the education of children and young adults Throughout its discussion the book makes extensive references to a large body of multicultural fiction and provides a thorough review of research on this important topic
