read about every place with unusual tides and water currents yet he wears this scholarship lightly Tides have shaped our world They have carved out shorelines transformed early life on Earth and altered the course of human civilization Tides frustrated Alexander the Great and Julius Caesar and aided General MacArthur They govern the way our planet moves provide us with an alternative source of energy and may be aggravating global climate change Drawing on science history and personal memories Koppel s fascinating book engages and enlightens demonstrating that a subject we take for granted affects all our lives He weaves together three grand narratives exploring how tides impact coasts and marine life how they have altered human history and development and how science has striven to understand the surprisingly complex way in which tides actually work

Ebb and Flow Easkey Britton,2023-04-11 An exploration of water s power to heal us inspire us and offer us spiritual meaning This is a feminist reimagining of the meaning of power through the lens of water Easkey offers a range of wellness practices to encourage the reader to connect with water as healer restoring a relationship of care Our strength lies in being soft like water This book is about the power we gain by connecting to water It s about how we can restore our relationship with the world s different bodies of water and by doing so restore both the water and ourselves By sharing Easkey s own experiences as surfer and marine scientist as well as those of many of her mentors who are at the forefront of water protection and activism around the world it guides readers into reimagining the spirituality of water and restoring our innate connection with this lifeblood of the planet The book also provides the reader with water

inspired strategies to restore calm reduce stress and soothe anxiety These range from simple breathing and visualization exercises to undertaking a journey from a water source to the ocean in order to forge a deep connection with the water The emphasis is as much on the benefit to water as it is to the individual and on creating a culture of reciprocity and care By regaining this lost connection with water we learn to develop an empathic connection with the force of all life and in the process restore our own hearts and minds
