Computers + Telecommunications in Africa ,2002 **ECDL Module 6: Presentation** David Stott,2001-01-29 Preface This book is intended to help you successfully complete the test for Module 6 of the European Computer Driving Licence ECDL However before we start working through the actual content of the guide you may find it useful to know a little bit more about the ECDL in general and where this particular Module fits into the overall framework What Is The ECDL The European Computer Driving Licence ECDL is a European wide qualification that enables people to demonstrate their competence in computer skills It certifies the candidate s knowledge and competence in personal computer usage at a basic level and is based upon a single agreed syllabus This syllabus covers a range of specific knowledge areas and skill sets which are broken down into seven modules Each of the modules must be passed before the ECDL certificate can be awarded though they may be taken in any order but must be completed within a three year period Testing of candidates is at audited testing centres and successful completion of the test will demonstrate the holder s basic knowledge and competence in using a personal computer and common computer applications The implementation of the ECDL in the UK is being managed by the British Computer Society It is growing at a tremendous rate and is set to become the most widely recognised qualification in the field of work related computer use **The British National Bibliography** Arthur James Wells,2004 Proceedings of the 2003 International Symposium on Collaborative Technologies and Systems ,2002 *Library + Information Update* ,2002

ICDL/ECDL Learning Guide - Module 6 Watsonia Software Pty Ltd. Staff,2002-12-01 **Tutorial--end User Facilities in the 1980's** James A. Larson,1982 In the 1980 s new developments and commercial offerings will radically change the relationship of the computer and those who wish to use it The emphasis today is on the needs of the user on

systems that are easier to learn easier to use more responsive and more solution oriented Modern end user facilities allow almost anyone to interact directly with the computer This book is intended for applications programmers and system analysts who design and implement systems for users who have no expertise in computing It describes trends and techniques that enable nonexperts to interact easily with computerized systems and use them to become more productive The papers appearing here were selected because they are the best available descriptions of what end user facilities will be like for the remainder of this decade
