McCloskey,2014-04-09 Development education is a radical form of learning that addresses the structural causes of poverty
and injustice in the global North and South This volume debates development education practice and the policy environment
in which it is delivered It affirmatively points to the transformative power of education as a means toward social change

volume **The Ends of Paradise** Christopher Loperena,2022-11-15 The future of Honduras begins and ends on the white
sand beaches of Tela Bay on the country s northeastern coast where Garifuna a Black Indigenous people have resided for
over two hundred years In *The Ends of Paradise* Christopher A Loperena examines the Garifuna struggle for life and
collective autonomy and demonstrates how this struggle challenges concerted efforts by the state and multilateral
institutions such as the World Bank to render both their lands and their culture into fungible tourism products Using a
combination of participant observation courtroom ethnography and archival research Loperena reveals how purportedly
inclusive tourism projects form part of a larger neoliberal extractivist development regime which remakes Black and
Indigenous territories into frontiers of progress for the mestizo majority The book offers a trenchant analysis of the ways
Black dispossession and displacement are carried forth through the conferral of individual rights and freedoms a prerequisite
for resource exploitation under contemporary capitalism By demanding to be accounted for on their terms Garifuna anchor
Blackness to Central America a place where Black peoples are presumed to be nonnative inhabitants and to collective land
rights Steeped in Loperena s long term activist engagement with Garifuna land defenders this book is a testament to their
struggle and to the promise of another world in which Black and Indigenous peoples thrive **Irish Songs and Poems**

Dominion of Voice Kimberly K. Smith,1999 In this work of historically informed political theory Kimberly Smith sets out to
understand how nineteenth century Americans answered the question of how the people should participate in politics Did
rational public debate the ideal that most democratic theorists now venerate transcend all other forms of political expression
How and why did passion disappear from the ideology if not the practice of American democracy To answer these questions
she focuses on the political culture of the urban North during the turbulent Jacksonian Age roughly 1830 50 when the shape
and character of the democratic public were still fluid Smith s method is to interpret in light of such popular discourse as
newspapers and novels several key texts in nineteenth century American political thought Frederick Douglass s Fourth of

July speech and Narrative Angelina Grimke's debate with Catharine Beecher Frances Wright's lectures and Harriet Beecher Stowe's Uncle Tom's Cabin Such texts Smith finds highlight many of the then current ideas about the extremes of political expression Her readings support the conclusions that the value of rational argument itself was contested that the emergent Enlightenment rationalism may have helped to sterilize political debate and that storytelling or testimony posed an important challenge to the norm of political rationality Smith explores facets of the political culture in ways that make sense of traditions from Whiggish resistance to Protestant narrative testimony She helps us to understand such puzzles as the point of mob action and other ritualistic disruptions of the political process our simultaneous attraction to and suspicion of political debates and the appeal of stories by and about victims of injustice Also found in her book are keen analyses of the antebellum press and the importance of oratory and public speaking Smith shows that alternatives to reasoned deliberation like protest resistance and storytelling have a place in politics Such alternatives underscore the positive role that interest passion compassion and even violence might play in the political life of America Her book therefore is a cautionary analysis of how rationality came to dominate our thinking about politics and why its hegemony should concern us Ultimately Smith reminds the reader that democracy and reasoned public debate are not synonymous and that the linkage is not necessarily a good thing

A Hidden History of Youth Development in South Africa Margaret Perrow, 2021-03-15 Drawing on two decades of interviews and ethnographic fieldwork 1998-2018 this book presents a unique and multi-faceted history of youth development in South Africa through the lens of a South African non-governmental organization NGO prominent in youth development from the mid 1980s until 2008 The book weaves history ethnography and discourse analysis to contextualize the Joint Enrichment Project JEP in the politics and history of South African education It examines JEP's role leading up to and during South Africa's transition to democracy its work and influence in post-apartheid South Africa and the continued relevance of its legacy to contemporary initiatives seeking to address youth development and social justice While JEP repeatedly repositioned itself as an organization from fighting the effects of apartheid on young people to becoming a potential partner with the new African National Congress ANC led government its most significant role may have been to reposition people After tracing JEP's twenty-year history the book focuses on the participants in a 1998 Youth Work Scheme exploring their learning experiences and the program's immediate impact on their lives It then revisits these participants twenty years later in 2018 analyzing their life trajectories after JEP and comparing them with the life trajectories of former JEP staff over the same period shedding light on broader patterns of socio-economic reproduction and change in the country The book concludes with a discussion of a perennial paradox facing youth development institutions This book will be of great interest to academics researchers and post-graduate students in the fields of education international development
