Judge,2017-04-02 ECHOES FROM THE ORIENT was written by Mr Judge sixteen years ago 1890 as a series of papers for a well known periodical The author wrote under the name of Occultus as it was intended that his personality should be hidden until the series was completed The value of these papers as a popular presentation of Theosophical teaching was at once seen and led to their publication in book form As Mr Judge wrote in his Antecedent Words to the earlier edition The restrictions upon the treatment of the subject growing out of the popular character of the paper in which they were published precluded the detail and elaboration that would have been possible in a philosophical or religious periodical No pretense is made that the subject of Theosophy as understood in the Orient has been exhaustively treated for believing that millions of years have been devoted by the sages who are the guardians of Theosophical truth to its investigation I think no one writer could do more than to repeat some of the echoes reaching his ears The reader should remember that the scope and influence of the Theosophical Movement have since that

time 1890 greatly expanded the work of THE UNIVERSAL BROTHERHOOD AND THEOSOPHICAL SOCIETY now reaching nearly every country in the world Point Loma California 1906 **Echoes from the Orient** Quan William,2016-05-19 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant [Echoes from The Orient](#) Judge William (author),1901 **Echoes from the Orient** William Quan Judge,Kate Field,2016-04-22 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Echoes from the Orient* William Quan Judge,Katherine Augusta Westcott Tingley,2016-05-07 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this
