Berkley Showcase Vol4:

Active Particles, Volume 4 José Antonio Carrillo, Eitan Tadmor, 2024-12-12 This edited volume collects nine surveys that present the state of the art in modeling qualitative analysis and simulation of active particles focusing on specific applications in the natural sciences As in the preceding Active Particles volumes it blends diverse applications that demonstrate the interdisciplinary nature of the subject and the various mathematical tools available Contributions were selected with the aim of covering a variety of viewpoints from modeling the interactions in collective dynamics of animals and in population dynamics through neural networks semi supervised learning and Monte Carlo methods in optimization to kinetic and continuum theories with applications to aggregations and birth and death processes Mathematicians and other members of the scientific community interested in active matter and its many applications will find this volume to be a timely authoritative and valuable resource

Resource Efficiency Complexity and the Commons Bruce Lankford, 2013-09-05 The efficient use of natural resources is key to a sustainable economy and yet the complexities of the physical aspects of resource efficiency are poorly understood In this challenging book the author proposes a major advance in our understanding of this topic by analysing resource efficiency and efficiency gains from the perspective of common pool resources applying this idea particularly to water resources and its use in irrigated agriculture The author proposes a novel concept of the paracommons through which the savings of increased resource efficiency can be viewed In effect he asks who gets the gain of an efficiency gain By reusing economising and avoiding losses wastes and wastages freed up resources are available for further use by four destinations the same user parties directly connected to that user the wider economy or returned to the common pool The paracommons is thus a commons of and competition for resources salvaged by changes to the efficiency of natural resource systems The idea can be applied to a range of resources such as water energy forests and high seas fisheries Five issues are explored the complexity of resource use efficiency the uncertainty of efficiency interventions and outcomes destinations of freed up losses wastes and wastages implications for resource conservation and the interconnectedness of users and systems brought about by efficiency changes The book shows how these ideas put efficiency on a par with other dimensions of resource governance and sustainability such as equity justice resilience and access

Anderson,2011-11-15 Since the American University of Beirut opened its doors in 1866 the campus has stood at the intersection of a rapidly changing American educational project for the Middle East and an ongoing student quest for Arab national identity and empowerment Betty S Anderson provides a unique and comprehensive analysis of how the school shifted from a missionary institution providing a curriculum in Arabic to one offering an English language American liberal education extolling freedom of speech and analytical discovery Anderson discusses how generations of students demanded that they be considered legitimate voices of authority over their own education increasingly these students sought to introduce into their classrooms the real life political issues raging in the Arab world The Darwin Affair of 1882 the introduction of coeducation in the 1920s the Arab nationalist protests of the late 1940s and early 1950s and the even larger protests of the 1970s all challenged the Americans and Arabs to fashion an educational program relevant to a student body constantly bombarded with political and social change Anderson reveals that the two groups chose to develop a program that combined American goals for liberal education with an Arab student demand that the educational experience remain relevant to their lives outside the school s walls As a result in eras of both cooperation and conflict the American leaders and the students at the school have made this American institution of the Arab world and of Beirut *Books in Print Supplement* ,1984 **Schwann Spectrum** Schwann Publications,Schwann Publications Staff,1996-11 **Building** ,1887
