Berlin Secession Modernism And Its Enemies In Imperial Germany:

The Berlin Secession Peter Paret,1980 **An Artist Against the Third Reich** Peter Paret,2003-03-24 The conflict between National Socialism and Ernst Barlach one of the important sculptors of the twentieth century is an unusual episode in the history of Hitler's efforts to rid Germany of international modernism Barlach did not passively accept the destruction of his sculptures He protested the injustice and continued his work The author's discussion of Barlach's art and struggle over creative freedom are joined to an analysis of Barlach's opponents Peter Paret's fine study of an artist in a time of crisis seamlessly combines the history of modern Germany and the history of modern art Germany's Struggle for Modernity Jürgen Kocka,Volker Berghahn,2025-04-01 In the historiography of modern Germany the nineteenth century's innovations marks a period of seismic change From accelerating demographic growth to growing secularization and the rise of nationalism it was a century which laid the foundations for both a civil society and the dictatorships of the twentieth century In this comprehensive history of Germany from 1780 to 1918 Jürgen Kocka re-examines the transformative interactions that took place between society economy culture and politics Innovatively resituating these developments within a wider context of conflict and transformation in Europe this book illuminates new ways to understand the emergence of classical modernity within the nineteenth century German Modernism Walter Frisch,2005-07-25 In this pioneering erudite study of a pivotal era in the arts Walter Frisch examines music and its relationship to early modernism in the Austro-German sphere Seeking to explore the period on its own terms Frisch questions the common assumption that works created from the later 1870s through World War I were transitional between late romanticism and high modernism Drawing on a wide range of examples across different media he establishes a cultural and intellectual context for late Richard Wagner Richard Strauss Gustav Mahler and Arnold Schoenberg as well as their less familiar contemporaries Eugen d'Albert Hans Pfitzner Max Reger Max von Schillings and Franz Schreker Frisch explores ambivalent modernism in the last quarter of the nineteenth century as reflected in the attitudes of and relationship between Nietzsche and Wagner He goes on to examine how naturalism the first self-conscious movement of German modernism intersected with musical values and practices of the day He proposes convergences between music and the visual arts in the works of Brahms Max Klinger Schoenberg and Kandinsky Frisch also explains how near the turn of the century composers drew inspiration and techniques from music of the past the Renaissance Bach Mozart and Wagner Finally he demonstrates how irony became a key strategy in the novels and novellas of Thomas Mann the symphonies of Mahler and the operas of Strauss and Hofmannsthal **Banned in Berlin** Gary D. Stark,2012 Imperial Germany's governing elite frequently sought to censor literature that threatened established political social religious and moral norms in the name of public peace order and security It claimed and exercised a prerogative to intervene in literary life that was broader than that of its Western neighbors but still not broad enough to prevent the literary community from challenging and subverting many of the social norms the state was most determined to defend This study is

the first systematic analysis in any language of state censorship of literature and theater in imperial Germany 1871-1918 To assess the role that formal state controls played in German literary and political life during this period it examines the intent function contested legal basis institutions and everyday operations of literary censorship as well as its effectiveness and its impact on authors publishers and theater directors
