## **Berlioz Studies:**

**Berlioz Studies** Peter Bloom, 2006-11-02 This volume contains nine substantial essays by the world's leading Berlioz scholars. They cover various aspects of Berlioz's life and works and represent an important contribution to Berlioz research. The book includes essays based on documents both biographical and musical that give us among other things a portrait of the artist as a young man and a revealing view of an important but little studied work of his maturity. There are readings of *Romeo et Juliette* and *La Damnation de Faust* that wrestle anew with the problems of the relationships between literature and music and as Berlioz's music nearly always requires with the problems of genre. Two views of Berlioz's *Les Nuits d'été* are presented which ask when and why the work was conceived and how the work coheres. The practical question of Berlioz's metronome marks are here thoroughly studied for the first time. The volume closes with a novel piece in dialogue form by the elder statesman of Berlioz scholars Jacques Barzun who treats with exceptional grace the profound issues raised by Berlioz the man and musician. He was a thinker in an age that invented both the religion of art and the notion of the genius who preached and practised it. This Companion contains essays by eminent scholars on Berlioz's place in nineteenth-century French cultural life, on his principal compositions, symphonies, overtures, operas, sacred works, songs, on his major writings, a delightful volume of memoirs, a number of short stories, large quantities of music criticism, an orchestration treatise on his direct and indirect encounters with other famous musicians: Gluck, Mozart, Beethoven, Wagner, and on his legacy in France. The volume is framed by a detailed chronology of his life and a usefully annotated bibliography. [Studies in Modern Music \(Classic Reprint\)](#) W. H. H. Hadow, 2015-06-02 Excerpt from Studies in Modern Music Hector Berlioz Robert Schumann Richard Wagner It has often been observed in various tones of reproach or protest that we are all growing into a practice of accepting any statement that we hear frequently or authoritatively repeated From our systems of government and philosophy down to the advertisements in our daily papers everything bears witness to a policy of reiteration We are indeed inclined to be suspicious of new ideas especially those of unknown origin or authorship in dealing with any proposition we like above all things to know who framed it and how many people believe it to be true But if we are satisfied on these points if we can see the image and superscription of some recognised potentate and feel the edges smooth with the usage of many hands we scruple no longer but take the assertion for sterling without examining its reverse side or testing the genuineness of its ring About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
