The Sublime Object of Orientalism Paul Bowman,2026-03-02 *The Sublime Object of Orientalism* proposes that globalised Asian physical cultural practices such as taiji qigong yoga and meditation can be understood by examining the intimate connection between Western orientalism and the Romantic aesthetic notion of the sublime The book recasts orientalist physical culture as practices animated by the sublime and argues that this relationship is stronger than has hitherto been recognised by commentators Bowman combines new readings of philosophers and cultural critics such as Slavoj i ek and Jane Iwamura with analyses of film media and Asian physical practices and their entrepreneurial forms to shed light on the quest to articulate a philosophy of orientalist physical culture He also explores ways to make sense of orientalist physical culture in the contemporary world and evaluate the often problematic ideologies that circulate around these cultural practices without either uncritically accepting their value or rejecting them outright This empathetic and accessible volume is a must read for students researchers and teachers of cross cultural studies cultural theory postcolonialism and orientalism **The ^AInvention of Martial Arts** Paul Bowman,2020-12-17 Author Paul Bowman recasts our understanding of the history of martial arts showing how Western media representations in the 1970s not only popularized the concept but actively created martial arts as a recognizable idea and cultural phenomenon *Bruce Lee Jeet Kune Do* Bruce Lee,John Little,1997-11-15 Compiled from Bruce Lee s notes and writings *Bruce Lee Jeet Kune Do* is the seminal book presenting the martial art created by Bruce Lee himself Jeet Kune Do was a revolutionary new approach to the martial arts in its time and is the principal reason why Bruce Lee is revered as a pioneer by martial artists today many decades after his death The development of his unique martial art form its principles core techniques and lesson plans are all
