Encounters in the Rubble Erica J. Lansberg, 2025-08-12 The US occupation of Germany after World War II was a time in which encounters between American soldiers and young German civilians were especially ubiquitous Overall German children and youth played a fundamental role in the US occupation impacting both personal and political relations Using a blend of sources ranging from German children s diaries to official US military records this work provides a wide reaching examination of the youngest civilians under occupation in the postwar aftermath of the Nazi regime It centers on the personal experiences of both German children and American military personnel during the occupation and also examines the ways that young Germans impacted transatlantic policies especially in the context of the emerging Cold War including during the Berlin Airlift This work thus considers the youngest members of the occupied German population as important

historical actors during a time of major transition from war to peace marked by encounters made in the rubble

Encountering Nazi Tourism Sites Derek Dalton, 2019-08-05 *Encountering Nazi Tourism Sites* explores how the terrible legacy of Nazi criminality is experienced by tourists bridging the gap between cultural criminology and tourism studies to make a significant contribution to our understanding of how Nazi criminality is evoked and invoked in the landscape of modern Germany This study is grounded in fieldwork encounters with memorials museums and perpetrator sites across Germany and the Netherlands including Berlin Holocaust memorials and museums the Anne Frank House the Wannsee House Wewelsburg Castle and concentration camps At the core of this research is a respect for each site's unique physical architectural or curatorial form and how this enables insights into different aspects of the Holocaust Chapters grapple with themes of authenticity empathy voyeurism and vicarious experience to better comprehend the possibilities and limits of affective encounters at these sites This will be of great interest to upper level students and researchers of criminology Holocaust studies museology tourism studies memorialisation studies and the burgeoning field of difficult heritage

The CIA and the Congress for Cultural Freedom in the Early Cold War Sarah Miller Harris, 2016-08-05 This book questions the conventional wisdom about one of the most controversial episodes in the Cold War and tells the story of the CIA's backing of the Congress for Cultural Freedom For nearly two decades during the early Cold War the CIA secretly sponsored some of the world's most feted writers philosophers and scientists as part of a campaign to prevent Communism from regaining a foothold in Western Europe and from spreading to Asia By backing the Congress for Cultural Freedom the CIA subsidized dozens of prominent magazines global congresses annual seminars and artistic festivals When this operation QKOPERA became public in 1967 it ignited one of the most damaging scandals in CIA history Ever since then many accounts have argued that the CIA manipulated a generation of intellectuals into lending their names to pro American anti Communist ideas Others have suggested a more nuanced picture of the relationship between the Congress and the CIA with intellectuals sometimes resisting the CIA's bidding Very few accounts however have examined the man who held the Congress together Michael Josselson the Congress's indispensable manager and secretly a long time CIA agent This book fills that gap Using a wealth of archival research and interviews with many of the figures associated with the Congress this book sheds new light on how the Congress came into existence and functioned both as a magnet for prominent intellectuals and as a CIA operation This book will be of much interest to students of the CIA Cold War History intelligence studies US foreign policy and International Relations in general

Experimental Politics and the Making of Worlds Anja Kanngieser, 2016-04-15 Creative strategies have been central to global social movements From the theatrics of the 1999 Seattle protests to the rebel clowns at the 2005 G8 summit in Gleneagles and the antics of the Yes Men the crossovers between art and politics have increasingly become more visible and prolific This book explores an innovative form of creative and communicative politics the performative encounter as a strategy for facilitating new ways of being relating and making worlds Unlike existing

scholarship that frames such encounters in artistic or cultural terms this book analyzes performative encounters through an organizational lens to accentuate their social political potential engaging a wealth of material from autonomist philosophy political science performance studies geography and social movement texts Intertwining conceptual and ethnographic research it uniquely maps out one narrative of the encounter tracing a line through the twentieth century from the Berlin Dadaists to the Situationist International to several contemporary German collectives and campaigns showing how performative encounters intervene in global and local issues such as the privatization of public space and resources human mobility and the corporatization of education

Encounter Berlin Brian Perch, 2011-03 The Author's interest in Berlin began in earnest in 1963 during a year spent teaching English in the West Berlin district of Neukolln Some of the material was collected at that time but far more has amassed over the years so that it now constitutes a documented fully illustrated account of how the city has developed from earliest times to the present Personal reminiscences are included so too are sections on Berlin character and humour The material is varied as is the story of this immensely alluring city whose involvement in the dark years of two dictatorships as well as two world wars has not prevented it from recovering like the phoenix literally from the ashes of World War II to become the world capital it is again today His stated chief aim has been to present a non specialist account for the general reader and his hope is that readers will find as much enlightenment from reading it as he has had pleasure in writing it
