Bernar Venet:

Bernar Venet Carter Ratcliff, 1994 One of France's most uniquely compelling artists Bernar Venet has devoted the last two decades to an investigation of meaning and form in sculpture Venet was trained as a painter but quickly became involved with conceptual art experimenting with mathematical and aesthetic principles in a variety of media particularly sculpture In this illustrated book critic Carter Ratcliff provides an illuminating look at the complex relationship between form language and meaning in Venet's recent work **Bernar Venet performances, etc. 1961-2006. Ediz. inglese e francese** Bernar Venet, 2006 If it is not surprising how many mediums Bernar Venet has worked in from sculpture to painting to photography to sound to furniture it is surprising how many he has used in performance From the first moments of Performance dans les d tritus in 1961 through sound compositions corresponding to and implicating his visual work to a ballet for which he wrote the music created the choreography and designed both the set and costumes Venet has been omnivorous recording mathematical poems on vinyl the engines of the Concorde on CD and finally the sounds of the creation of his own sculpture In 2004 Venet had three simultaneous solo shows in New York City two at the Robert Miller and Jim Kempner galleries and a third along the Park Avenue Mall where his large scale Indeterminate Line pieces were installed In 2005 he was named Chevalier de la Legion d Honneur France's highest decoration **Bernar Venet** Bernar Venet, 1995 Bernar Venet Thierry Lenain, Thomas Mcevilley, Bernar Venet, 2007-09-18 Bernar Venet b 1941 France is a master of contemporary conceptual art who has worked in all media from painting and sculpture to film music and ballet In his early work Venet sought to distill art to strip it of aesthetic or expressive content and to reestablish it as purely conceptual He withdrew from the art world in 1971 fulfilling a promise he had made four years prior to stop producing new work once he perceived that his term was up After a six year hiatus the artist reemerged and over the next thirty years produced a vast body of work in diverse media This monograph complete with over 300 illustrations addresses the struggle of aesthetic and intellectual forces at play in contemporary art through the work of one of its foremost practitioners Today Venet's sculptures massive iron structures in three categories lines and angles arcs and indeterminate lines are exhibited in museums and public spaces across the world These forms whether striking out independently into the air leaning against a ch teau curving upward from the earth or twisting arbitrarily around themselves or each other stand at the threshold between the physical and the abstract between the material and the purely geometric testing the liminal spaces between art world and mind *Bernar Venet. Paintings. Ediz. multilingue* Bernar Venet, Alexandre Devals, Olivier Schefer, 2012 French artist Bernar Venet born 1941 is perhaps best known for his steel sculptures but he was also an accomplished and prolific painter This publication highlights 50 years of his paintings from the earliest tar paintings and cardboard reliefs to later more mathematical works Bernar Venet Thomas McEvelley, Bernar Venet, 2002 **Bernar Venet**, 2009 Devenu propri t de Bernar Venet depuis 1989 le domaine du Muy situ dans l arri re pays varois est plus qu un lieu de vill giature C est l exemple unique d un site entier investi par un artiste o ses

propres créations répondent une collection exceptionnelle d'art contemporain et où les espaces privés s'ouvrent la vue de tous. Le reporter Robert Arnoux et le critique d'art Damien Sausset retracent l'histoire de ce lieu qui fut tour tour un moulin puis une usine de sa naissance au XVIII^e siècle jusqu'à ce qu'il devienne la résidence de Bernar Venet qui en a fait un espace d'art.

"Art and Visual Culture on the French Riviera, 1956-1971" Rosemary O'Neill, 2017-07-05 The Riviera in the 1950s and 1960s was culturally rich with modernist icons such as Matisse and Picasso in residence but also a burgeoning tourist culture that established the Côte d'Azur as a center of indigenous artists associated with Nouveau Réalisme. Fluxus and Supports Surfaces emerged under the mantle of the Ecole de Nice. Drawing on the primary sources and little known publications generated during the period from museum archives, collections in the region and privately owned archives, this study integrates material published in monographic studies of individuals and art movements to offer the first in-depth study of this important movement in twentieth-century art. The author situates the work of the Ecole de Nice within the broader social currents that are so important in contextualizing this phenomenon within this internal region of France and underscores why this work was so significant at this historical moment within the context of the broader European art scene and contemporary American art with which it shared affinities. Despite their stylistic differences and associations with groups that are generally considered distinct, O'Neill discloses that these artists shared conceptual affinities, theatrical modes of presentation based on appropriation, use of the ready-made, and a determination to counter style-driven painting associated with the postwar Ecole de Paris. *Art and Visual Culture on the Riviera 1956-1971* suggests that the emergence of an Ecole de Nice internally eroded the dominance of Paris as the national standard at this moment of French decentralization efforts and that these artists fostered a model of aesthetic pluralism that remained locally distinct yet fully engaged with international vanguard trends of the 1960s.

Bernar Venet Barry Schwabsky, Florence Derieux, Clare Lilley, 2020-06-17 The first true monograph on the work of celebrated French conceptual artist and sculptor Bernar Venet. Bernar Venet is one of France's most celebrated living artists. Having emerged from the late 1960s avant-garde scene in New York, Venet developed a personal aesthetic based on an innovative use of mathematics and science where control, chance, and chaos converge to form a fine equilibrium while investigating their relationship with the environment. Conversant in many media, Venet is mostly known for his monumental outdoor sculptures in major cities worldwide, and in fall 2019 his Arc Majeur is due for completion at a site in Belgium at almost 200 feet in height (60 metres). Venet's sculpture will be taller than New York
