This collection of essays in honour of Anthony N S Lane has two main foci picking up themes which resonate with some of Lane's most important work. The first broad theme is the reception of the thought of earlier generations of biblical interpreters and theologians. The essays here explore various facets of reception history: textual transmission, the identification of editions used, the deployment of these sources in doctrinal formulation in polemic and in relation to the contested site of catholicity. The second broad theme is engagement with other confessional identities and allegiances. The essays presented here shed light on the past and stimulate contemporary theological reflection. **Finding the Monk**

Within Edward C. Sellner, 2008. *Finding the Monk Within* is written with the conviction that lying deep within every person and underlying much of contemporary western and eastern cultures is an ancient memory, a vital archetypal energy related to monasticism and its spirituality. This book recovers that monastic memory, the living presence of the past for those who desire to name and incorporate monastic values: values of solitude and silence, faith and compassion, friendship and mentoring, contemplation and leadership itself. The author examines the social and religious dimensions in the fourth century that gave rise to monasticism, then looks at Christian leaders from late antiquity to the medieval period associated with monasticism in both East and West who have much to teach about monastic values and their relevance for today among them: Antony the first monk, Augustine and Jerome, John Cassian, Brigit of Kildare and early Celtic monasticism, Gregory the Great, Benedict and Scholastica and finally Bernard of Clairvaux. By studying the history of monasticism and its great heroes we come to realize that for the Christian much of what we call monastic is purely and simply what being a follower of Christ is all about and that being a monk, whether inside monastic enclosures or outside in the world, is simply becoming the sort of person everyone ought to be: a person who unites action and contemplation in the care of souls. writes the author. By becoming familiar with the stories and thought of these inspirational figures, readers will be inspired to incorporate monastic perspectives and values into their own lives. *Holy Power, Holy Presence* Elizabeth Dreyer, 2007

Western theology is frequently criticized for not having a fully developed pneumatology. According to these critics, preoccupation with Christology and an excessive focus on the nature and unity of God have come at the expense of a full theology of the three persons. While admitting that there is some truth to these criticisms, Elizabeth Dreyer maintains that those who level them base their conclusions on a narrow range of texts and thus fail to establish a true neglect of the Holy Spirit. Medieval authors offer a wealth of creative language and insight that speaks to the role of the Holy Spirit in contemporary spirituality and contributes to a renewed pneumatology for the twenty-first century. Book jacket **Bernard of Clairvaux** HarperCollins Spiritual Classics, 2005-09-27. Bernard of Clairvaux holds a distinguished place in the history of Christian spirituality. During the twelfth century, this gentle monk from France became the primary guide for those who follow the path of selfless love, as well as a spokesman for a revival in monastic life. This collection of his most important writings provides a superb introduction to a man who has greatly shaped
