A State Of Corruption:

Pennsylvania, a State of Corruption Stephen Worob,2009 In 1992 I volunteered my services at the Morrisville School board to make my small town a better place Thirteen years later I was persecuted by a powerful and evil justice system that inflicted unbearable heartache that stole my family s future for honoring my oath My crime was that I passionately stood up and spoke out against corruption and refused to be silenced As my wife battled for her life with cancer Pennsylvania s vindictive system of justice caused our family to be dragged for more than two years through a frivolous lawsuit and misguided judgment that tore my family apart I wrote this book to inform people that law enforcement is selective and our court system is being used to protect corruption while our watchdogs are under sieged Worst of all our so called servants of the public control the media and will crush anyone who stands in their way Taxing the State Richard F. Winters,2025-10-31 Taxing the State The Politics of Changing Taxes in the American States is a comparative analysis that explores the socioeconomic and political causes and effects of tax policy and budget spending at the state level The chapters analyze the level of taxation as political action undertaken by the state Richard F Winters makes a key contribution to the politics of taxation by examining the causes and electoral consequences of tax changes and compares the political strategies that governors employ in the face of tax changes This book will be of interest for students and scholars of American politics state and local politics comparative political economy and public administration and policy *The Influence of Campaign Contributions in State Legislatures* Lynda W. Powell,2012-03-06 Campaign contributions are widely viewed as a corrupting influence but most scholarly research concludes that they have marginal impact on legislative behavior Lynda W Powell shows that contributions have considerable influence in some state legislatures but very little in others Using a national survey of legislators she develops an innovative measure of influence and delineates the factors that explain this great variation across the 99 U S state legislative chambers Powell identifies the personal institutional and political factors that determine how much time a legislator devotes to personal fundraising and fundraising for the caucus She shows that the extent of donors legislative influence varies in ways corresponding to the same variations in the factors that determine fundraising time She also confirms a link between fundraising and lobbying with evidence supporting the theory that contributors gain access to legislators based on donations Powell s findings have important implications for the debate over the role of money in the legislative process **Crime-Terror Alliances and the State** Lyubov Mincheva,Ted Robert Gurr,2013-01-03 This book examines the trans border connections between militant and criminal networks and the relationship between these and the states in which they operate Unholy alliances is a term used to describe hybrid trans border militant and criminal networks that pose serious threats to security in Europe and elsewhere Identity networks provide the basis for militant organizations using violent strategies insurgency and terrorism for political objectives To gain funds and weapons militant networks may establish criminal enterprises or align with existing trans border criminal and

financial networks This book extends the concept of unholy alliances to include the trans state criminal syndicates that arise in failed and dysfunctional states exemplified by Serbia and Bulgaria during their post Communist transitions To deal with this complex and unconventional subject the authors develop a theoretical framework that looks at four kinds of factors conditioning the interaction between the political and the criminal trans state identity networks armed conflict the balance of market opportunities and constraints and the role of unstable and corrupt states The volume also examines actors at two levels of analysis the structure and activities of militant and or criminal networks and the policies of state actors that shape and reshape the interaction of opportunities and constraints This book will be of much interest to students of terrorism insurgency transnational crime war and conflict studies and IR in general
