Resources in Education, 1979 **Assessing Affective/interactional Behaviors in the Classroom** Steven Erling
Landfried, 1978 **Assessment of the Effects of Affective Student Characteristics and Educational Background on
Mathematics Achievement at the Level of Higher Education** Mathew Akoko, 2011-06 Doctoral Thesis Dissertation from
the year 2010 in the subject Sociology Knowledge and Information grade A Atlantic International University School of Social
and Human Studies course Doctorate in Education language English abstract The primary purpose of this research was to
investigate the effects of individual student affective factors and educational background on mathematics achievement
among higher education students as measured by semester grades in the core mathematics courses Student Locus of Control
Self Efficacy and Mathematics Anxiety were the specific individual student affective factors that were examined in the study
Educational backgrounds of the students were examined as an attempt to explain the differences in mathematics
performance at the higher education level To achieve this high school teacher characteristics and instructional practices in
influencing students affective factors were examined All of the analyses presented were performed on data collected for the
study from two institutions of higher education in Cameroon for the student participants and from high school mathematics
teachers of the English Speaking and the French Speaking subsystems of education The results of the study show that
student internal locus of control high mathematics self efficacy and Mathematics Anxiety were associated with performance
in mathematics at the higher education level The results also revealed a high significant difference in the performance of the
students in mathematics from the two educational backgrounds the English Speaking and French Speaking The results of the
study revealed that the English Speaking subsystem of education is suffering from an acute shortage of qualified high school
mathematics teachers The results show that only 10.5% of the high school mathematics teachers who participated in the
study had postgraduate qualifications as against 56.9% for mathematics teachers of the French Speaking subsystem *Advances

The Comprehensive Assessment List for Affective Disorders (COALA) T. Furukawa,1995 **International Handbook of Behavior Modification and Therapy** Alan S. Bellack,Michel Hersen,Alan E. Kazdin,2012-12-06 It is particularly gratifying to prepare a second edition of a book because there is the necessary implication that the first edition was well received Moreover now an opportunity is provided to correct the problems or limitations that existed in the first edition as well as to address recent developments in the field Thus we are grateful to our friends colleagues and students as well as to the reviewers who have expressed their approval of the first edition and who have given us valuable input on how the revision could best be structured Perhaps the first thing that the reader will notice about the second edition is that it is more extensive than the first The volume currently has 41 chapters in contrast to the 31 chapters that comprised the earlier version Chapters 3 9 29 and 30 of the first edition either have been dropped or were combined whereas 14 new chapters have been added In effect we are gratified in being able to reflect the continued growth of behavior therapy in the 1980s Behavior therapists have addressed an ever increasing number of disorders and behavioral dysfunctions in an increasing range of populations The most notable advances are taking place in such areas as cognitive approaches geriatrics and behavioral medicine and also in the treatment of childhood disorders
