

# A British Picture

**Geoffrey Macnab**

## **A British Picture:**

**A British Picture** Ken Russell, 2008 With a foreword by Melvyn Bragg The updated autobiography of Britain's most controversial film director Moving with astonishing assurance through time and space Russell recreates his life in a series of interconnected episodes his 30s childhood in Southampton his first sexual experience watching Disney's Pinocchio his schooldays at the Nautical College Pangbourne and early careers in the Merchant Marines and the Royal Air Force Full of marvellously funny anecdotes and fascinating insights this is a remarkable autobiography

**Hitchcock** Robert E. Kapsis, 2022-02-21 From the beginning of his career Alfred Hitchcock wanted to be considered an artist Although his thrillers were immensely popular and Hitchcock himself courted reviewers he was for many years regarded as no more than a master craftsman By the 1960s though critics began calling him an artist of unique vision and gifts What happened to make Hitchcock's reputation as a true innovator and singular talent Through a close examination of Hitchcock's personal papers scripts production notes publicity files correspondence and hundreds of British and American reviews Robert Kapsis here traces Hitchcock's changing critical fortunes Vertigo for instance was considered a flawed film when first released today it is viewed by many as the signal achievement of a great director According to Kapsis this dramatic change occurred because the making of the Hitchcock legend was not solely dependent on the quality of his films Rather his elevation to artist was caused by a successful blending of self promotion sponsorship by prominent members of the film community and most important changes in critical theory which for the first time allowed for the idea of director as auteur Kapsis also examines the careers of several other filmmakers who like Hitchcock have managed to cross the line that separates craftsman from artist and shows how Hitchcock's legacy and reputation shed light on the way contemporary reputations are made In a chapter about Brian De Palma the most renowned thriller director since Hitchcock Kapsis explores how Hitchcock's legacy has affected contemporary work in and criticism of the thriller genre Filled with fascinating anecdotes and intriguing excerpts and augmented by interviews with Hitchcock's associates this thoroughly documented and engagingly written book will appeal to scholars and film enthusiasts alike Required reading for Hitchcock scholars scrupulously researched invaluable material for those who continue to ask what made the master tick Anthony Perkins

**The Film Renter and Moving Picture News**, 1926

**The Great War in American and British Cinema, 1918-1938** Ryan Copping, 2020-11-10 This book recounts the reception of selected films about the Great War released between 1918 and 1938 in the USA and Great Britain It discusses the role that popular cinema played in forming and reflecting public opinion about the War and its political and cultural aftermath in both countries Although the centenary has produced a wide number of studies on the memorialisation of the Great War in Britain and to a lesser degree the USA none of them focused on audience reception in relation to the Anglo American circulatory system of Trans Atlantic culture

**J. Arthur Rank and the British Film Industry** Geoffrey Macnab, 2013-01-11 Presiding over the golden era of the British Film Industry from the mid to late 1940s J Arthur Rank

financed movies such as *Oliver Twist* *The Red Shoes* *Brief Encounter* *Caesar and Cleopatra* and *Black Narcissus*. Never before and never since has the industry risen to such heights. J Arthur Rank charts every aspect of the robust film culture that Rank helped to create. Having started out with relatively little knowledge of the cinema, Rank's sponsorship was to bring about astounding progress within the industry and by establishing an organization comparable in size to any of the major Hollywood studios, Rank briefly managed to reconcile and consolidate the competing demands of art and business, an achievement very much absent from today's diminished and fragmented film industry. Macnab goes on to explain the eventual collapse of the Rank experiment amidst the economic and political maelstrom of post-war Britain, highlighting the problems still facing the industry today. By meshing archival research with interviews with Rank's contemporaries and members of his family, this definitive study firmly restores Rank to his rightful place at the hub of British film history.

**Financing the British Film Industry** James Chapman, 2025-04-28. Financing the British Film Industry provides a comprehensive history of the financing of British film production from the origin of the industry until the end of the Second World War. It documents the growth of the film business from a cottage industry to a mature business enterprise. It considers the capitalisation of the industry and analyses the relationships between producers, banks, and insurance companies. It charts the fluctuating fortunes of British film making and the various government-backed initiatives that support the production sector. James Chapman argues that the difficulties of the British film industry arose not from the extravagances of individual producers or the collapse of particular companies, but from underlying economic and structural weaknesses that the industry was too reliant on short-term finance and that the domestic market was insufficient to guarantee a profitable return for anything other than a modestly budgeted film.
