Goodman,Simon Stern,2017-05-12 Nineteenth century America witnessed some of the most important and fruitful areas of intersection between the law and humanities as people began to realize that the law formerly confined to courts and lawyers might also find expression in a variety of ostensibly non legal areas such as painting poetry fiction and sculpture Bringing together leading researchers from law schools and humanities departments this Companion touches on regulatory statutory and common law in nineteenth century America and encompasses judges lawyers legislators litigants and the institutions they inhabited courts firms prisons It will serve as a reference for specific information on a variety of law and humanities related topics as well as a guide to understanding how the two disciplines developed in tandem in the long nineteenth century     *Mastering America* Robert E. Bonner,2009-04-27 *Mastering America* recounts efforts of proslavery nationalists to navigate the nineteenth century geopolitics of imperialism federalism and nationalism and to articulate themes of American mission in overtly proslavery terms At the heart of this study are spokesmen of the Southern Master Class who crafted a vision of American destiny that put chattel slavery at its center Looking beyond previous studies of the links between these proslavery nationalists and secession the book sheds new light on the relationship between the conservative Unionism of the 1850s and the key formulations of Confederate nationalism that arose during war in the 1860s Bonner s innovative research

charts the crucial role these men and women played in the development of American imperialism constitutionalism evangelicalism and popular patriotism
