Gazda,Anne E. Haeckl,1991 This is a stimulating book and should be compulsory reading for all students of Roman art Classical Review For all the authors attention to the ensemble a sense of the relation between the formal and the iconographic and the desire to historicize their material contribute to making this anthology unusual in its rigorous and creative attention to the way that art and architecture participate in the construction of the image of the Roman elite Art Bulletin Roman Art in the Private Sphere presents an impressive case for the social and art historical importance of the paintings mosaics and sculptures that filled the private houses of the Roman elite The six essays in this volume range from the first century B C E to the fourth century C E and from the Italian peninsula to the Eastern Empire and North African provinces The essays treat works of art that belonged to every major Roman housing type the single family atrium houses and the insula apartment blocks in Italian cities the dramatically sited villas of the Campanian coast and countryside and the palatial mansions of late antique provincial aristocrats In a complementary fashion the essays consider domestic art in relation to questions of decorum status wealth social privilege and obligation Patrons emerge as actively interested in the character of their surroundings artists appear as responsive to the desire of their patrons The evidence in private art of homosexual conduct in high society is also set forth Originality of subject matter sophisticated appreciation of stylistic and compositional nuance and philosophical perceptions of the relationship of humanity and nature are among the themes that the essays explore Together they demonstrate that Roman domestic art must be viewed on its own terms Elaine K Gazda is Professor of the History of Art and Curator of Hellenistic and Roman Antiquities at the Kelsey Museum of Archaeology University of Michigan **Ancient Greece and Rome** Keith Hopwood,1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament s New Model Army from 1645 to1650 Although Fairfax emerged as England s most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax s relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one

of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally Ancient Roman Gardens Elisabeth B.

MacDougall, Wilhelmina Feemster Jashemski, 1981 *From Rome to Byzantium* Michael Grant, 2015-03-04 Byzantium was dismissed by Gibbon in the Decline and Fall of the Roman Empire and his Victorian successors as a decadent dark oriental culture given up to intrigue forbidden pleasure and refined cruelty This great empire founded by Constantine as the seat of power in the East began to flourish in the fifth century AD after the fall of Rome yet its culture and history have been neglected by scholars in comparison to the privileging of interest in the Western and Roman Empire Michael Grant's latest book aims to compensate for that neglect and to provide an insight into the nature of the Byzantine Empire in the fifth century the prevalence of Christianity the enormity and strangeness of the landscape of Asia Minor and the history of invasion prior to the genesis of the empire Michael Grant's narrative is lucid and colourful as always lavishly illustrated with photographs and maps He successfully provides an examination of a comparatively unexplored area and constructs the history of an empire which rivals the former richness and diversity of a now fallen Rome **The Grove Encyclopedia of**

Eliav, Elise A. Friedland, Sharon Herbert, 2008 Public sculptures were the mass media of the Roman world They populated urban centers throughout the empire serving as a plastic language that communicated political religious and social messages This book

brings together twenty eight experts who otherwise rarely convene text based scholars of the Greco Roman Jewish and Christian realms from the fields of classics history and religion and specialists in the artistic traditions of Greece and Rome as well as art historians and archaeologists Utilizing the full spectrum of ancient sources the book examines the multiple at times even contradictory meanings and functions that statues served within the complex world of the Roman Near East Moreover it situates the discussion of sculpture in the broader context of antiquity in order to reevaluate long held scholarly consensuses on such ideas as the essence of Hellenism the culture that emerged from the encounter of Greco Romans with the Near East and the everlasting conflict among paganism Christianity and Judaism
