A Short History Of Decay:

A Short History of Decay E. M. Cioran, 2012-11-13 E M Cioran confronts the place of today's world in the context of human history focusing on such major issues of the twentieth century as human progress fanaticism and science in this nihilistic and witty collection of aphoristic essays concerning the nature of civilization in mid twentieth century Europe Touching upon Man's need to worship the feebleness of God the downfall of the Ancient Greeks and the melancholy baseness of all existence Cioran's pieces are pessimistic in the extreme but also display a beautiful certainty that renders them delicate vivid and memorable Illuminating and brutally honest A Short History of Decay dissects Man's decadence in a remarkable series of moving and beautiful pieces A Short History of Decay Emile M. Cioran, Richard Howard, 1975-01-01 **The Godman and the Sea** Michael J. Thate, 2019-10-04 If scholars no longer necessarily find the essence and origins of what came to be known as Christianity in the personality of a historical figure known as Jesus of Nazareth it nevertheless remains the case that the study of early Christianity is dominated by an assumption of the force of Jesus's personality on divergent communities In The Godman and the Sea Michael J Thate shifts the terms of this study by focusing on the Gospel of Mark which ends when Mary Magdalene Mary the mother of James and Salome discover a few days after the crucifixion that Jesus's tomb has been opened but the corpse is not there Unlike the other gospels Mark does not include the resurrection portraying instead loss puzzlement and despair in the face of the empty tomb Reading Mark's Gospel as an exemplary text Thate examines what he considers to be retellings of other traumatic experiences the stories of Jesus's exorcising demons out of a man and into a herd of swine his stilling of the storm and his walking on the water Drawing widely on a diverse set of resources that include the canon of western fiction classical literature the psychological study of trauma phenomenological philosophy the new materialism psychoanalytic theory poststructural philosophy and Hebrew Bible scholarship as well as the expected catalog of New Testament tools of biblical criticism in general and Markan scholarship in particular The Godman and the Sea is an experimental reading of the Gospel of Mark and the social force of the sea within its traumatized world More fundamentally however it attempts to position this reading as a story of trauma ecstasy and what has become through the ruins of past pain The Matter of Evil Drew M. Dalton, 2023-10-15 A provocative and entirely new account of ethical reasoning that reconceives the traditional understanding of ethical action negatively In this radical reconsideration of ethical reasoning in contemporary European philosophy Drew M Dalton makes the case for an absolutely grounded account of ethical normativity developed from a scientifically informed and purely materialistic metaphysics Expanding on speculative realist arguments Dalton argues that the limits placed on the nature of ethical judgments by Kant's critique can be overcome through a moral evaluation of the laws of nature specifically the entropic principle that undergirds the laws of physics chemistry and biology In order to extract a moral meaning from this simple material fact Dalton scrutinizes the presumptions of classical accounts and traditional understandings of good and evil within the history of Western philosophy and ultimately

asserts that ethical normativity can be reestablished absolutely without reverting to dogmatism By overturning our assumptions about the nature and value of reality *The Matter of Evil From Speculative Realism to Ethical Pessimism* presents a provocative new model of ethical responsibility that is both logically justifiable and scientifically sound Dalton argues for ethical pessimism a position previously marginalized in the West as a means to cultivate an account of ethical responsibility and political activism that takes seriously the unbecoming of being and the moral horror of existence
