A Smile In The Minds Eye:

A Smile in His Mind's Eye Ray Morrison, 2005-01-01 Durrell's best known work fused Western notions of time and space with Eastern metaphysics. Very little has been written about Durrell's work before the Second World War. *With A Smile in His Mind's Eye* Ray Morrison seeks to redress this neglect.

My Mind's Eye K.S. McCoy, 2003-09-12 INTRODUCTION
My Mind's Eye fantasy is McCoy's first book of short stories with adult content. She specifies that this book is not for kids but for adults of the age of consent who don't want something to learn but as an escape from reality for a short period of time. In that light it is secondly dedicated to her friends and acquaintances in Fantasy Role play for their ideas and laughter at her muse for taking the time to read a story or two of hers in helping her to decide to complete the book. Thank You my friends for your time, trouble, and thoughts on my writing. I can only hope I have done all of you proud. Aye lad, The Sea has been my mistress some 40 years now. Stories: Yes, there are stories to be told. Pull up a chair and I'll tell them to you.

Echoes of the Mind's Eye: 13 Science Fiction and Speculative Fiction Short Stories Victor D. López, 2020-11-29 This book is a compilation of 13 contemporary science fiction and speculative fiction short stories by the author, including 10 newly edited and updated stories from his previous *Book of Dreams* and *Mindscapes* collections, as well as three new stories. The scope of this collection extends from the innermost dimensions of the mind to the outer reaches of the universe. The stories touch on both timeless and novel themes, including philosophical questions as to the meaning of life, the nature of reality, the power of love, and the superlative strength and wrenching weakness of the human spirit. The stories in this collection can be difficult to classify as they touch on a variety of themes, literary styles, and genres that include hard and soft science fiction, horror, humor, romance, and literary fiction in both traditional and unusual combinations. Several of the stories in this collection can be classified as dark fiction that pose all too disturbingly feasible ways for human beings to destroy themselves and perhaps even our corner of the universe. But these are tempered with humor and with the hope that springs from humanity's ability to cheat fate through its ingenuity and more importantly to learn from its mistakes. Each story is intended to entertain but also to leave the reader thinking long after she/he puts down the book. The author is the Cypres Family Distinguished Professor in Legal Studies in Business at Hofstra University's Frank G. Zarb School of Business. He has published eight textbooks and textbook editions through traditional publishers including Irwin, Mirror Press, McGraw Hill, Prentice Hall, and Textbook Media Press, in addition to trade books and reference books on computer software and intellectual property law. He has also published numerous articles on law-related topics in law reviews and academic peer-reviewed journals. His fiction and poetry have appeared in print in various college literary journals, and he has published several books of short stories, poetry, and most recently his first novel *Hire Lerin*.
