Page, Elise L. Smith, 2026-01-05 Southern Women Southern Landscapes Cultural Reflections on the Garden 1870 1970 is an exploration of a number of Southern women writers artists and gardeners both Black and white who looked to the land for inspiration and identity Examining figures ranging from Reconstruction through the height of the civil rights era in Florida Louisiana North Carolina Mississippi and Virginia Southern Women Southern Landscapes focuses on a period that marks a profound change in women's cultural and social roles Page and Smith explore the women's various attitudes toward the natural world as they responded to the disruptions of war and the restrictions of race and gender The book emphasizes the concept of a storied landscape recognizing that landscapes are both natural and cultural phenomena that speak to humans who are open to their narratives The women featured in Southern Women Southern Landscapes were often concerned with place making and the specificity of locale including gardens larger landscapes and wild places but they also believed in a shared responsibility to care for the earth more generally Communities partnerships and friendships in various forms were all crucial to their creativity in the garden or in other endeavors related to the natural world This book addresses these broad ranging issues through extensive archival research to support a variety of genres and media novels poetry essays letters and newspapers as well as book illustrations photographs folk art and more traditional paintings *Garden Life*, 1911 *One Writer's Garden* Susan Haltom, Jane Roy Brown, 2011-09-08 By the time she reached her late twenties Eudora Welty 1909 2001 was launching a distinguished literary career She was also becoming a capable gardener under the tutelage of her mother Chestina Welty who designed their modest garden in Jackson Mississippi From the beginning Eudora wove images of southern flora and gardens into her writing yet few outside her personal circle knew that the images were drawn directly from her passionate connection to and abiding knowledge of her own garden Near the end of her life Welty still resided in her parents house but the garden and the friends who remembered it had all but vanished When a local garden designer offered to help bring it back Welty began remembering the flowers that had grown in what she called my mother's garden By the time Welty died that gardener Susan Haltom was leading a historic restoration When Welty's private papers were

released several years after her death they confirmed that the writer had sought both inspiration and a creative outlet there This book contains many previously unpublished writings including literary passages and excerpts from Welty s private correspondence about the garden The authors of *One Writer s Garden* also draw connections between Welty s gardening and her writing They show how the garden echoed the prevailing style of Welty s mother s generation which in turn mirrored wider trends in American life Progressive era optimism a rising middle class prosperity new technology women s clubs garden clubs streetcar suburbs civic beautification conservation plant introductions and garden writing The authors illustrate this garden s history and the broader story of how American gardens evolved in the early twentieth century with images from contemporary garden literature seed catalogs and advertisements as well as unique historic photographs Noted landscape photographer Langdon Clay captures the restored garden through the seasons

Remaking Wormsloe Plantation Drew A. Swanson,2012-04 Why do we preserve certain landscapes while developing others without restraint Drew A Swanson s in depth look at Wormsloe plantation located on the salt marshes outside of Savannah Georgia explores that question while revealing the broad historical forces that have shaped the lowcountry South Wormsloe is one of the most historic and ecologically significant stretches of the Georgia coast It has remained in the hands of one family from 1736 when Georgia s Trustees granted it to Noble Jones through the 1970s when much of Wormsloe was ceded to Georgia for the creation of a state historic site It has served as a guard post against aggression from Spanish Florida a node in an emerging cotton economy connected to far flung places like Lancashire and India a retreat for pleasure and leisure and a carefully maintained historic site and green space Like many lowcountry places Wormsloe is inextricably tied to regional national and global environments and is the product of transatlantic exchanges Swanson argues that while visitors to Wormsloe value what they perceive to be an authentic undisturbed place this landscape is actually the product of aggressive management over generations He also finds that Wormsloe is an ideal place to get at hidden stories such as African American environmental and agricultural knowledge conceptions of health and disease the relationship between manual labor and views of nature and the ties between historic preservation and natural resource conservation *Remaking Wormsloe Plantation* connects this distinct Georgia place to the broader world adding depth and nuance to the understanding of our own conceptions of nature and history
