A Space Inside A Space:

Designing Public Spaces in Hospitals Nicoletta Setola, Sabrina Borgianni, 2016-04-14 *Designing Public Spaces in Hospitals* illustrates that in addition to their aesthetic function public spaces in hospitals play a fundamental role concerning people's satisfaction and experience of health care. The book highlights how spatial properties such as accessibility, visibility, proximity, and intelligibility affect people's behavior and interactions in hospital public spaces. Based on the authors' research, the book includes detailed analysis of three hospitals and criteria that can support the design in circulation areas, arrival and entrance, first point of welcome, reception, and the interface between city and hospital. Illustrated with 150 black and white images.

Violent Acts and Urban Space in Contemporary Tel Aviv Tali Hatuka, 2010-05-01 Violent acts over the past fifteen years have profoundly altered civil rituals, cultural identity, and the meaning of place in Tel Aviv. Three events in particular have shed light on the global rule of urban space in the struggle for territory, resources, and power: the assassination of Prime Minister Rabin in 1995 in the city council square, the suicidal bombing at the Dolphinarium Discothèque along the shoreline in 2001, and bombings in the Neve Shaanan neighborhood in 2003. Tali Hatuka uses an interdisciplinary framework of urban theory and sociopolitical theory to shed light on the discourse regarding violent events, to include an analysis of the physical space where these events take place. She exposes the complex relationships among local groups, the state, and the city, challenging the national discourse by offering a fresh interpretation of contesting forces and their effect on the urban environment. Perhaps the most valuable contribution of this book is its critical assessment of the current Israeli reality, which is affected by violent events that continually alter the everyday life of its citizens. Although these events have been widely publicized by the media, there is scant literature focusing on their impact on the urban spaces where people live and meet. In addition, Hatuka shows how sociopolitical events become crucial defining moments in contemporary lived experience, allowing us to examine universal questions about the way democracy, ideology, and memory are manifested in the city.

University Libraries and Space in the Digital World Dr. Graham Walton, Professor Graham Matthews, 2013-02-28 This timely book addresses physical space in university libraries in the digital age. It considers the history of the use of space, integrates case studies from around the world with theoretical perspectives, explores recent developments including new build and refurbishment. With users at the forefront, chapters cover different aspects of learning and research support, provision, shared services, and evaluation of space initiatives. Library staff requirements and green issues are outlined. The book also looks to the future, identifying the key strategic issues and trends that will influence and shape future library spaces. The authors are international senior university library managers and academics who provide a range of views and approaches and experience of individual projects and initiatives.
