Excerpt from *Realism A Study in Art and Thought* An explanation if not an apology is perhaps due to the reader for offering him a book which discusses philosophy as well as art My only excuse is that the field invites trespassers So little has been done at least in English to discover the theory of realism in art and its connexion if it has any with realism in thinking that sooner or later some one was bound to raise the question whether the two things have not something more in common than their name That is the origin of the book though the chapters on art and those on philosophy can be read independently of each other Chapters II VII deal with art Chapters VIII and IX with philosophy while the first and last chapters may be called mixed The introductory chapter sketches some of the points which are discussed later and some of the stages which have led up to the modern point of view About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
