

Writing Tall Tales

A tall tale is a wild story. It tells about an unbelievable character doing unbelievable things. Tall tales are almost always funny and full of superhuman events. They are often based on stories about real people such as Annie Oakley, Johnny Appleseed, or Davy Crockett.

On the Wild Frontier

Davy Crockett was born in Tennessee in 1786 and became a famous frontier explorer and soldier. Many tall tales tell of his adventures, such as fighting a bear when he was just three years old!

Tall Tales for Little People Lynn Cooper,2023-03-15 Tall Tales for Little People is a fun read for children revealing some interesting characters caught up in a number of strange and sometimes scary situations There are laughs along the way and then some other things that just make you scratch your head and wonder if things like that could really happen Each story is written to entertain while also giving a valuable life lesson at the end These stories come from the mind of this old grandfather who when he was a little boy sat on his uncle s country porch listening to other tall tales from long ago Come along and meet some very interesting individuals and get ready for a good laugh or for the hair to rise up on your noggin and your eyes grow big as you pull the covers up close under your chin in the dark **Ten Tall Tales for Small People**

Institution of Washington Publication ,1920 *Country Life in America* ,1902 **Prairie Fire** Julie Courtwright,2023-01-13 Prairie fires have always been a spectacular and dangerous part of the Great Plains Nineteenth century settlers sometimes lost their lives to uncontrolled blazes and today ranchers such as those in the Flint Hills of Kansas manage the grasslands through controlled burning Even small fires overlooked by history changed lives destroyed someone s property threatened someone s safety or simply made someone s breath catch because of their astounding beauty Julie

Courtwright who was born and raised in the tallgrass prairie of Butler County Kansas knows prairie fires well In this first comprehensive environmental history of her subject Courtwright vividly recounts how fire setting it fighting it watching it fearing it has bound Plains people to each other and to the prairies themselves for centuries She traces the history of both natural and intentional fires from Native American practices to the current use of controlled burns as an effective land management tool along the way sharing the personal accounts of people whose lives have been touched by fire The book ranges from Texas to the Dakotas and from the 1500s to modern times It tells how Native Americans learned how to replicate the effects of natural lightning fires thus maintaining the prairie ecosystem Native peoples fired the prairie to aid in the hunt and also as a weapon in war White settlers learned from them that burns renewed the grasslands for grazing but as more towns developed settlers began to suppress fires now viewed as a threat to their property and safety Fire suppression had as dramatic an environmental impact as fire application Suppression allowed the growth of water wasting trees and caused a thick growth of old grass to build up over time creating a dangerous environment for accidental fires Courtwright calls on a wide range of sources diary entries and oral histories from survivors colorful newspaper accounts military weather records and artifacts of popular culture from Gene Autry stories to country song lyrics to Little House on the Prairie Through this multiplicity of voices she shows us how prairie fires have always been a significant part of the Great Plains experience and how each fire that burned across the prairies over hundreds of years is part of someone s life story By unfolding these personal narratives while looking at the bigger environmental picture Courtwright blends poetic prose with careful scholarship to fashion a thoughtful paean to prairie fire It will enlighten environmental and Western historians and renew a sense of wonder in the people of the Plains
