A System Of Metaphysics

Noah Porter

A System Of Metaphysics:

A System of Metaphysics George Stuart Fullerton, 2023-07-18 In this groundbreaking work of philosophy George Stuart Fullerton sets out to offer a comprehensive and systematic account of metaphysical inquiry Drawing upon the insights of the great philosophers of the past Fullerton presents an original and compelling vision of the nature of reality and the human experience This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *A System of Metaphysics* George Stuart Fullerton, 1904 **A**

System of Metaphysics George Stuart Fullerton, 2015-06-15 Excerpt from *A System of Metaphysics* Some of the material in Chapters I II and V of this volume has already appeared in the *Psychological Review* and Chapters XV XVI and XVII have been reprinted without very much change They first appeared as articles in the same journal In Chapter XXXIII I have made some use of two articles published in the *Popular Science Monthly* The chapters on Space and Time are reprinted from the *Philosophical Review* with little change except that in Chapter XI some new matter has been added To the editors of the journals mentioned Professor Cattell Professor Baldwin and Professor Creighton my thanks are due for their courtesy in permitting me to reprint as I have done Thus about one fourth of the present volume has already seen the light It is right that I should say that nothing that has already appeared has been taken up into the book as an afterthought From the beginning the work has been a unit it has been for a number of years on my hands and the publication of the papers above mentioned was due largely to a curiosity to see how the doctrines advocated would impress others It was perhaps hardly fair to present them deprived of their setting and this injustice if injustice it be is remedied now At the end of the book I have placed a note on the Physical World Order by my former pupil Professor Edgar A Singer Jr of the University of Pennsylvania It has seemed to me of especial interest as coming from one trained in metaphysical analysis and familiar with the principles and methods of the sciences About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *SYSTEM OF METAPHYSICS* George Stuart 1859-1925 Fullerton, 2016-08-24 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it

This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
