Dictionary must be viewed both as a whole and in its parts Viewed as a whole it must not be compared with a selection of Biographies such for instance as the Lives of Plutarch whose object was to inculcate moral lessons rather than simply to tell the events of a man s life Viewed in its parts a Biographical Dictionary must not be compared with special Biography which has always a particular object and also a completeness unattainable in a work which professes to give within reasonable limits some account of all persons who have lived and have done anything for which they ought to be remembered A Biographical Dictionary is consulted as a ready means of getting sufficient information for the time and as indicating the sources of further information Any attempt then to produce in any given instance a perfect Biography would be inconsistent both with the object and the limits of such a work It would also interfere with that unity in the mode of treating the subjects which should characterise a Biographical Dictionary in which little more ought to be attempted than to give a plain statement of the main events of a person s life in simple language and in the case of a writer a brief criticism on his principal works
