One Lonely Climb to Success Anna Deeter,2016-05-18 In 1889 the Russian Professor of Psychiatry I A Sikorski presented his hypothesis about the existence of a some kind of a neurological illness called stuttering in his monograph About Stuttering This unsubstantiated assumption was later translated into German discussed at international conferences served as a textbook in Germany and was further adopted by America in the twentieth century Throughout the world today the existing paradigm regarding any speech fluency disorder stuttering stammering cluttering is not only that it is neurological and genetic but also that it is incurable We re told that even if we were to stop stuttering the disease would continue and we would be stutterers forever It is that belief based on a falsehood that is primarily responsible for the stagnation that has existed for the past 100 years in the treatment of stuttering It is that paradigm that has given birth to this terrible untrue slogan Once a stutterer is always a stutterer It is my intention to change that paradigm I ve written this book to share with you the freedom giving information that is enabling people who stutter to fix their own speech and life Stuttering is NOT an illness or a medical condition You are NOT a stutterer and you are NOT incurably ill You have merely been deceived that you didn t have the power to develop your own speech and that you needed to rely on the power of others When you discover claim and use your own power your stuttering will cease completely and forever That is exactly what happened to Hussein Al hassan the hero of this book my former student and the Etalon graduate from Finland For 20 years of his life he battled with stuttering He wanted to stop it but he couldn t He didn t know how He was placed to a special school for mentally retarded children went to several speech therapists endlessly googled tips and programs for stuttering cure inquired about drugs for stutterers from all kind of doctors and stuttering experts All he could hear back from them was the same old story Stuttering is an incurable neurological

genetic disorder with a mysterious cause and that he will remain a stutterer for the rest of his life Fortunately he did not believe such lie On his lonely climb to his success he found the 100% reliable Etalon Speech Gymnastics solution and was able to overcome all obstacles on his way to take this life changing education course With no job no money no family support and no English language speaking skills this Arabic and Finnish speaking 18 yo stutterer appeared not having even a slightest chance to take part in the 3 day Etalon program to eliminate his severe stuttering ever But he had a burning desire and a strong will to become an adequate speaker These personal traits in combination with the revolutionary Etalon science lead him to the destination of his stutter free life Hussein has reached his stutter free destination that he desired so much and worked so diligently and insistentlly for He has become the master of his own life It s your turn now You also can claim your power to learn the naturally simple easy to perform speech etalons and become stutter free in only 3 days of the individual Etalon Speech Gymnastics self training under the guidance of an Etalon Speech Teacher Just like Hussein over 3 000 Etalon Program graduates were also labeled as hopeless lifetime stutterers prior to gaining their Etalon freedom They had been to many different stuttering treatment centers and programs and struggled in vain for years But they freed themselves of their own irrational speech behavior You or your loved one can too I hope you my dear reader will enjoy this inspirational story as much as I did while witnessing it first hand **My Story: Embracing My Stutter** Jane
