*Before Women Had Wings* Dorothy B. Schweitzer, 2010-07-27 *Women Without Wings* is a study of the lives of three young women and their mothers who lived out their lives in a time when Vietnam standards of gentility dictated the conduct of all classes. These standards did indeed insure that women had clipped wings. Myra, Anne, and Pet are of marriageable age. The summer they received invitations to a house party, the social event of the season. This event took the happy, thoughtless days of the three teenagers to the realization they were caught within the structured world that defined their behavior and had the power to choose their life partner. As the story unfolds against the background of upper class life in the years following the civil war, we see how circumstances begin to shape the lives of the three girls whose wings are symbolically clipped. We see each girl handling the situation differently: Myra defies, Anne manipulates the system, and Pet succumbs and, in deteriorating health, dies. This message of mothers and daughters still resonates in a powerful way for women who today have wings.

Her name is Avocet Jackson, but her mother called her Bird, naming both her children after birds, her logic being that if we were named for something with wings, then maybe we'd be able to fly above the shit in our lives.

**Encyclopedia of Television Film Directors** Jerry Roberts, 2009-06-05 From live productions of the 1950s like *Requiem for a Heavyweight* to big budget mini-series like *Band of Brothers*, long form television programs have been helmed by some of the most creative and accomplished names in directing. *Encyclopedia of Television Film Directors* brings attention to the directors of these productions, citing every director of stand-alone long form television programs made for TV movies, movie length pilots, mini-series, and feature length anthology programs, as well as drama, comedy, and musical specials of more than 60 minutes. Each of the nearly 2,000 entries provides a brief career sketch of the director, his or her notable works, awards, and a filmography. Many entries also provide brief discussions of key shows, movies, and other productions. Appendixes include Emmy Awards, DGA Awards, and other accolades, as well as a list of anthology programs. A much-needed reference that celebrates these often-neglected artists, *Encyclopedia of Television Film Directors* is an indispensable resource for anyone interested in the history of the medium. *Dear Mommy, I Just Called to Say I Love You* Shirley E.

**American Skin** Leon E. Wynter,2002 Race has always been America s first standard and central paradox From the start America based its politics on the principle of white supremacy but it has always lived and dreamed of itself in color The truth beneath the contradiction has finally emerged and led us to the threshold of a transformation of American identity as profound as slavery was defining We live in a country where the King of Pop was born black and a leading rap M C is white where salsa outsells ketchup and cosmetics firms advertise blond hair dye with black models Whiteness is in steep decline as the primary measure of Americanness The new true American identity rising in its place is transracial defined by shared cultural and consumer habits not skin color or ethnicity And this unprecedented redefinition of what American sounds looks and feels like is not being driven by the politics of protest or liberal multiculturalism but by a more basic American instinct the profit motive Smart marketers discovered that the inherent subversive appeal of transracial American culture was the perfect boombox for breaking through the noise of a crowded marketplace Nike and the NBA used unambiguous black style to create modern sports marketing Pepsi validated Michael Jackson as a superstar while adding millions to its own bottom li Hollywood turned a taboo into a lucrative clich with black white buddy films Oprah Winfrey created the model for the ultimate individual corporate br and Budweiser created a signature series of commercials built around four ordinary black men signaling something ineffably American with one word Wassup In the end this is a hopeful but clear eyed argument that while we fall short of true equality we are opting to carry on that struggle together within a common American cultural skin There s been a radical shift in the place of race and ethnicity in America Near revolutionary developments in advertising media marketing technology and global trade have in the last two decades of the twentieth century nearly obliterated walls that have stood for generations between nonwhites and the image of the American dream The mainstream heretofore

synonymous with what is considered average for whites is now equally defined by the preferences presence and perspectives of people of color The much maligned melting pot into which generations of European American identities are said to have dissolved is bubbling again but on a higher flame this time whiteness itself is finally being dissolved into a larger American identity On its surface this book tells the story of how and why big business turned up that flame and a brief history of race and pop culture leading up to this watershed But at its core *American Skin* is about the revolution that higher heat on American identity is bringing about the end of white America This book begins and my arguments and insights ultimately rest on one premise and guiding belief about this country We have always been and will ever be of one race human and of one culture American From the Introduction
