Throughout history societies have used and abused debt revolted and warred over debt and have forbidden usury But the modern financial world as we know it simply cannot exist without usury Since the 1400s modern governments have found new ways to expand debt to produce modern economies which are still subject to the age old basic principle of debt that it needs to be repaid or dire consequences ensue Those who cannot remember the past are condemned to repeat it George Santayana 1863 1952
