

BEFORE THE INVID STORM

Capítulo 1

Como una especie esclavizada por el tiempo, somos de los que dividen a la historia en pequeños paquetes. Y así nos encontramos a nosotros mismos a la merced de comentaristas que hablan de una Primera, Segunda y Tercera Guerra Robotech. Y somos forzados a escuchar a aquellas mismas voces disertar acerca de la generación de Henry Glavoil, la generación de Rick Hunter, y la generación de Dana Starling... Cuando, en mi humilde opinión, sólo hubo una guerra que empezó con la llegada de los Zentraedi y finalizó con la partida de los Invid, y sólo una generación que vivió a través de ella: la generación de la pérdida.

Jacob Remy, Robotech

Mina Yoshida sobría su té mientras veía como la nave nodriza de los Maestros de la Robotecnia caía a la superficie. Una banda de Logans y envejecidos varitechs realizaban lo que parecía una persecución en cámara lenta, mientras atacaban con sus innumerables misiles a esa gigante masa de metal y tecnología alienígena.

Los pilotos veteranos de la Primera Guerra Robotech podían recordar la devastación provocada por el SDF-1 cuando se transpusieron a nuestra atmósfera y realizó su terrible descenso a nuestro planeta 33 años antes. Y ahora esta nave madre -destrozada por el fuego y condenada por la gravedad- era dos veces más grande que aquel visitante de fin de siglo.

La filmación que provenía de las cámaras-robots era soberbia. Mina casi podía creer que estaba atestiguando la escena desde las inmediaciones, en vez de estarla presenciando desde su cómodo y espacioso departamento en la Tokyo subterránea. A los 12 años, ella sólo había vivido para enterarse de la catastrófica conclusión de la guerra contra los Zentraedi, pero ella había visto muchas veces la llegada de estos a la Isla Macross, varios encuentros entre el SDF-1 y las fuerzas de Brestai, y, por supuesto, la batalla contra la Flota Principal. Bastante material como ese había sobrevivido a la terrible Lluvia de la Muerte, pero ninguno de esos documentales rivalizaba con lo que pudo ver en el Canal de la Guerra, desde el arribo de los Maestros de la Robotecnia a nuestro sistema solar un año antes.

A veces a Mina le preocupaba su acostumbrada insensibilidad causada por las horas y horas en las que había seguido la guerra por la televisión. Un año antes tenía serios problemas para dormir cada noche, pero últimamente le parecía que la guerra se estuviera peleando en otro mundo y no éste. Si cambiaba los canales podía seguir viendo películas, comedias, lucha libre, y programas de ejercicios. En su mayor parte, la guerra había sido peleada en el espacio, y había poco que hacer para los ciudadanos en la Tierra más que dar su apoyo al Ejército de la Cruz del Sur y llorar lágrimas por los caídos. De hecho, la mayoría de las personas quería internarse en su fantasía de que lo que pasaba sobre nuestro planeta no tendría ningún efecto sobre la vida en la superficie.

Siempre se pensó que el asalto de los Maestros se concentraría en unas pocas ciudades. Mientras ciertas naciones-estados soberanos como Brasilia, México y Roma no habían sido ignoradas por las armas de los Maestros, Ciudad Monumento fue la que mayor castigo sufrió. Siendo la sede principal del Gobierno de la Tierra Unida, el Ejército de la Cruz del Sur, y la Policía Militar Global, Monumento era sin duda la ciudad más importante del mundo y la más próspera, aunque no la más poblada. También tenía la distinción de ser la más cercana al sitio conmemorativo a Ciudad Macross, cuyas 3 montañas hechas por los humanos eran los lugares de descanso para los restos del SDF-1 y 2, y el crucero que llevara a Khyron Kravshera a su muerte. Y -incluyendo a los mismos-

Before The Invid Storm
